

No	Tutorial	Picture
1	Cari aplikasi Scratch (bisa di website / di aplikasi komputer kalian)	 The screenshot shows a Yahoo search page with the URL <code>id.search.yahoo.com/search?fr=mcafee&type=E211ID714G0&p=scratch</code>. The search term is 'scratch'. Below the search bar, it says 'Tentang hasil pencarian 225.000'. The first result is from <code>scratch.mit.edu</code> with the title 'Scratch - Imagine, Program, Share'. The description states: 'Scratch is a free programming language and online community where you can create your own interactive stories, games, and animations.'
2	Tunggu sampai tampilan Scratch terbuka seperti ini	 The screenshot shows the Scratch website homepage. The header includes the Scratch logo and navigation links: 'Create', 'Explore', 'Ideas', 'Join Scratch', and 'Sign in'. A green banner with a white play button icon says 'Create stories, games, and animations. Share with others around the world.' Below this are buttons for 'Start Creating' and 'Join'. A 'Watch Video' button is also visible. The 'Featured Projects' section displays several project thumbnails, including 'Spider Drive', 'GDI HEX', 'Camp Night', 'See the Depths', and 'ORJINGL the puzzle...'. The 'Featured Studios' section shows thumbnails for 'Scratch', 'Scratch Jr.', and 'Oranges!'.
3	Lihat di pojok kiri atas sebelah logo "Scratch", klik yang "Create"	 This is a close-up screenshot of the top part of the Scratch website. It shows the 'scratch.mit.edu' URL, the Scratch logo, and the navigation links: 'Create', 'Explore', and 'Ideas'. Below these links is a green banner with the text 'Donations help keep the nonprofit Scratch free'.
4	Sampai terbuka tampilan seperti ini	 The screenshot shows the Scratch programming environment. On the left is the 'Scripts' area with a list of blocks. In the center is the 'Stage' area showing a cat sprite. On the right is the 'Sprites' area with a list of sprites. At the bottom is the 'Costumes' area with a list of costumes. A small window titled 'Tutorial' is open in the center, showing a cat sprite and a play button icon.

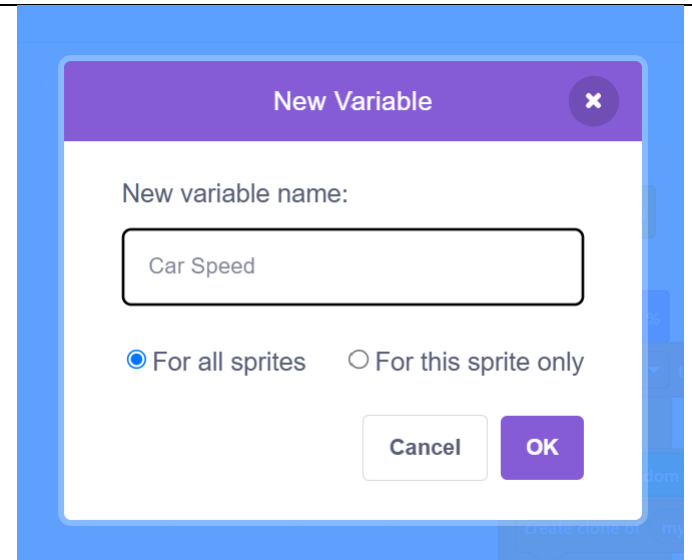

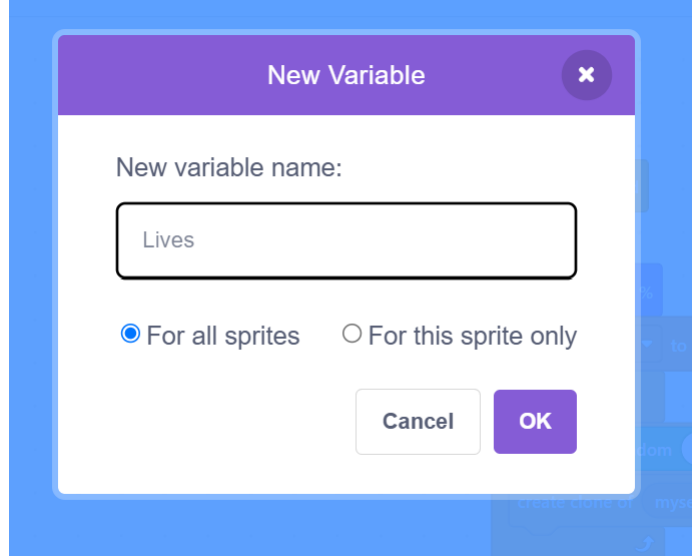

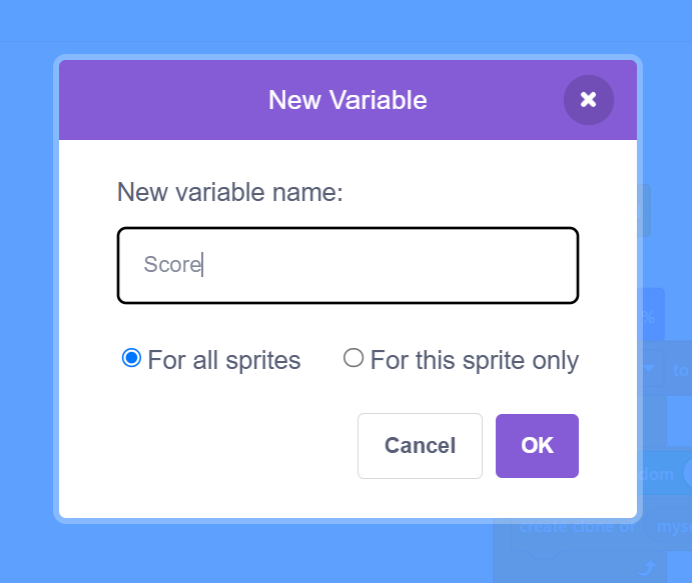

5	Close saja pop up video tutorial di pojok kiri bawah	
6	Hapus sprite Kucing di tampilan awal	
7	Klik "Choose a Sprite"	
8	Sampai terbuka tampilan seperti ini	

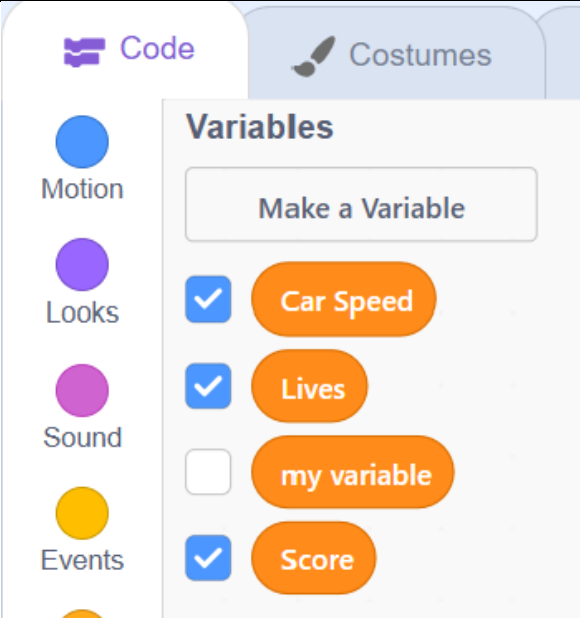

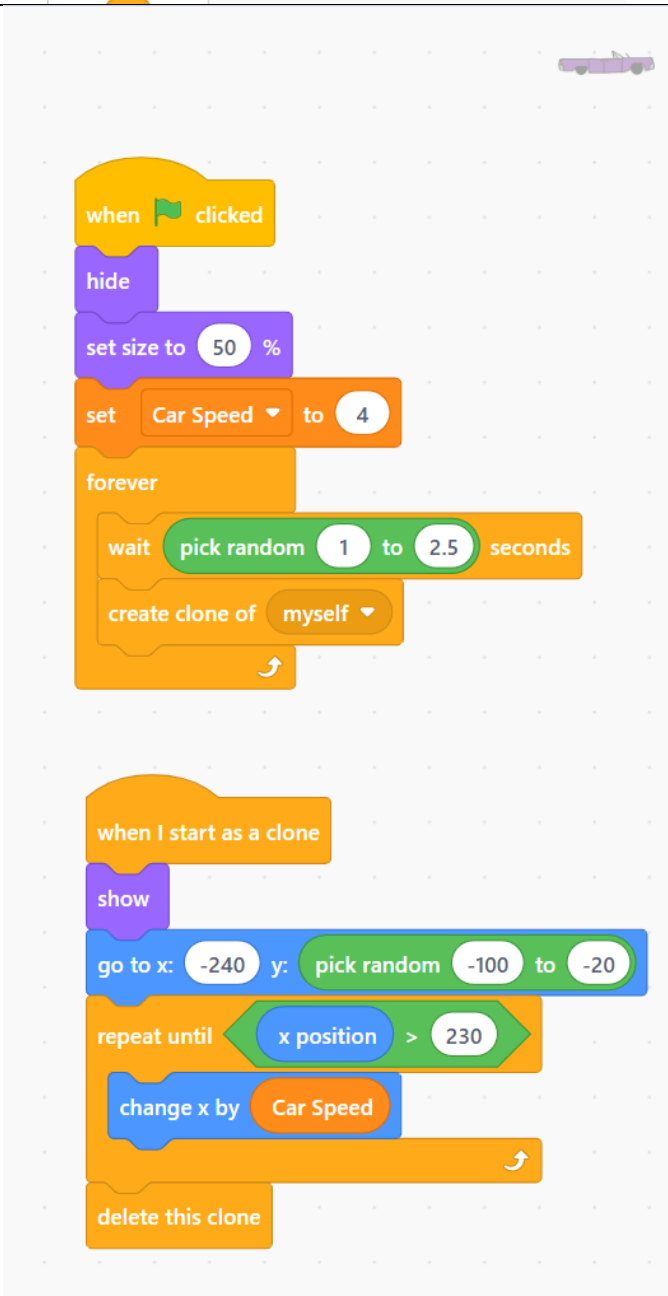

9	Search "Cat", kamu bisa pilih kucing mana yang kamu suka	 The screenshot shows a search interface with a purple header. A search bar contains the text "Cat" with a magnifying glass icon on the left and a blue "x" icon on the right. Below the search bar, there are two white cards. The first card features a cartoon orange cat with a white belly and paws, labeled "Cat". The second card features a cartoon orange cat lying on its back, labeled "Cat 2".
10	Search "convertible" , kamu bisa pilih jenis mobil mana yang kamu suka	 The screenshot shows a search interface with a purple header. A "Back" button with a left arrow is on the left, and a "Choose" button is on the right. A search bar contains the text "convertible" with a magnifying glass icon on the left and a blue "x" icon on the right. To the right of the search bar are two filter buttons: "All" (orange) and "Sports" (purple). Below the search bar, there are two white cards. The first card features a purple convertible car, labeled "Convertible". The second card features a green convertible car, labeled "Convertible 2".

11	Search “City Bus”, hanya ada 1 pilihan	 A screenshot of the Scratch search interface. At the top is a purple bar with a back arrow and the word 'Back'. Below it is a search bar containing the text 'City Bus' with a magnifying glass icon on the left and a close 'x' icon on the right. The search results show a single card featuring a red double-decker bus with 'Scratch Tours' written on its side. Below the image, the text 'City Bus' is displayed.
12	Search “Star”, bisa pilih yang kamu suka ini untuk garis finish	 A screenshot of the Scratch search interface for the term 'Star'. The top purple bar has a back arrow and the text 'Choose a Sprite'. The search bar contains 'Star'. To the right of the search bar are category buttons: 'All' (highlighted in orange), 'Animals', 'People', 'Sports', 'Food', and 'Fashion'. Below the search bar, three sprite cards are shown: a yellow star labeled 'Star', a pink starfish labeled 'Starfish', and a yellow sun labeled 'Sun'.
13	Klik “Choose Backdrop”	 A screenshot of the Scratch 'Choose a Backdrop' screen. A large green button with the text 'Choose a Backdrop' is centered. At the bottom, there are two circular icons: a cat face with a plus sign and a landscape image with a plus sign. On the right side, there is a vertical purple toolbar with icons for uploading, creating a new backdrop, erasing, and searching (a magnifying glass icon, which is highlighted in green).

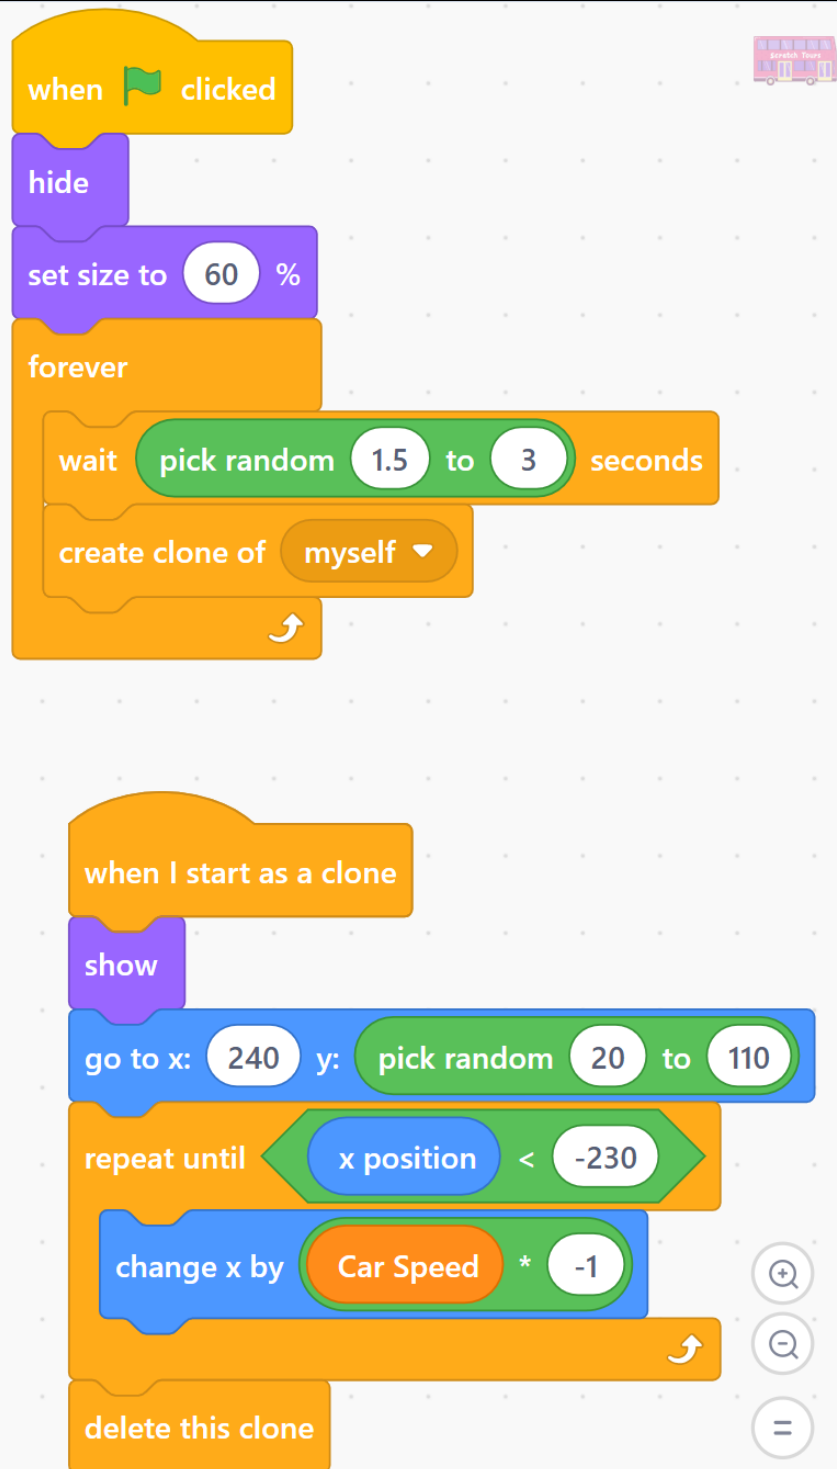

14	Hingga muncul seperti ini	
15	Pilih backdrop "Blue Sky 2" atau bisa kamu ganti dengan yg lain yg kamu suka	

16	Pastikan semua sprites dan backdrop sudah muncul	
17	Klik "Variables"	
18	Klik "Make a Variable"	

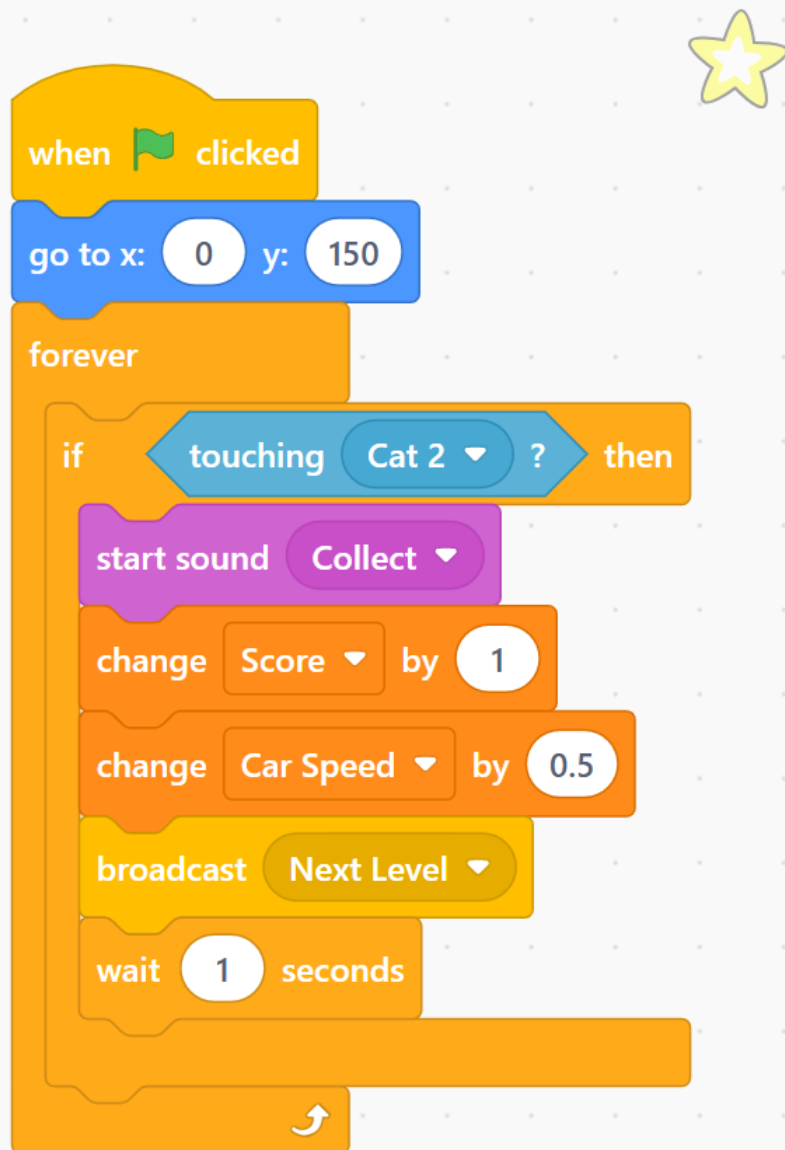

19	Ketik "Car Speed" > "For All Sprites" > OK	
20	Ketik "Lives" > "For All Sprites" > OK	
21	Ketik "Score" > "For All Sprites" > OK	

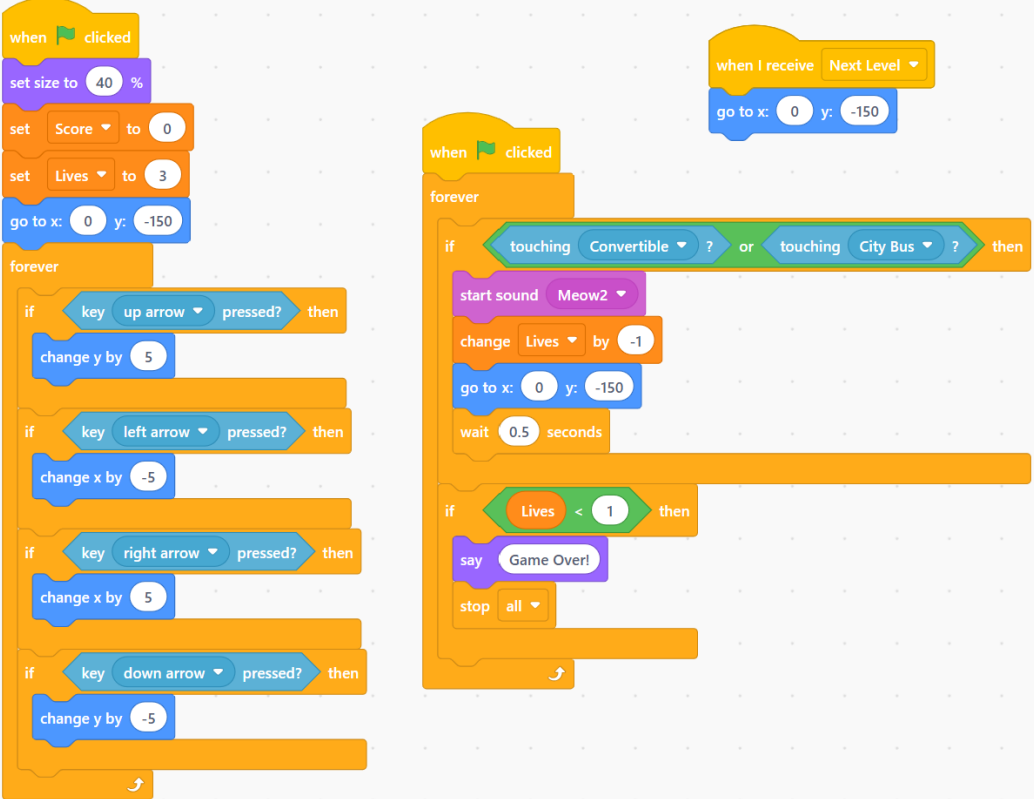

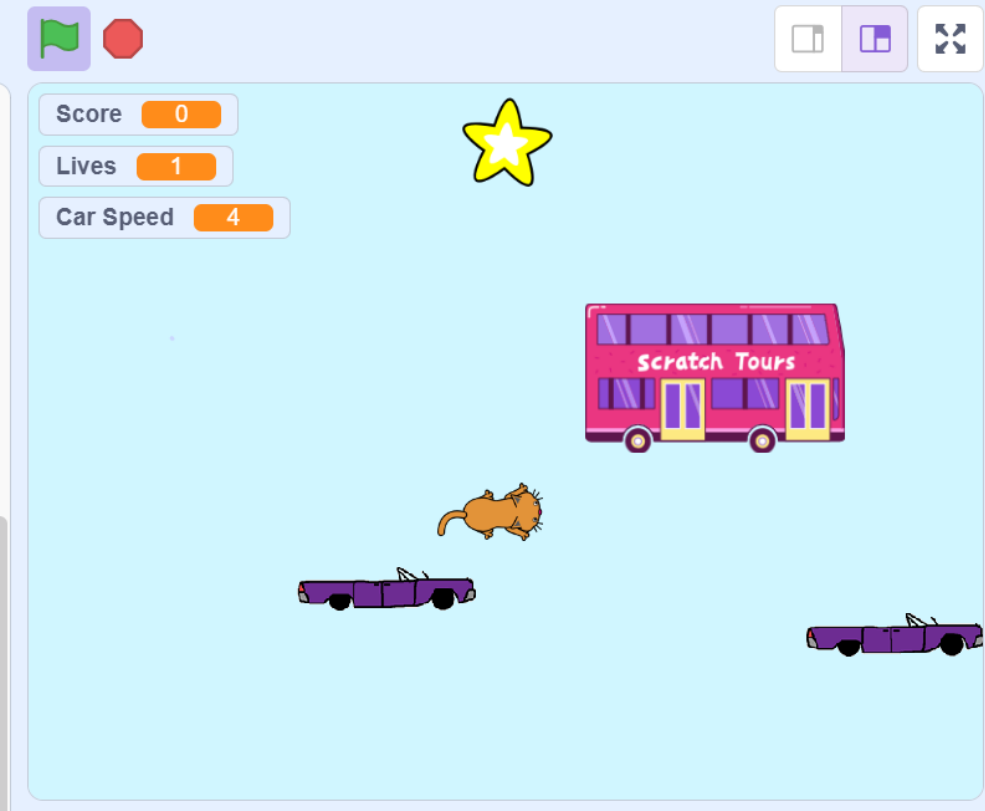

22	Pastikan tercentang semua	 The screenshot shows the Scratch 'Variables' menu. On the left, under the 'Code' tab, are categories: Motion, Looks, Sound, and Events. On the right, under the 'Costumes' tab, is the 'Variables' section. It has a 'Make a Variable' button and a list of variables: 'Car Speed' (checked), 'Lives' (checked), 'my variable' (unchecked), and 'Score' (checked).
23	Berikan kode untuk "Convertible"	 The screenshot shows a Scratch script for a 'Convertible' car. The script is as follows: <pre> when clicked hide set size to 50 % set Car Speed to 4 forever wait pick random 1 to 2.5 seconds create clone of myself end when I start as a clone show go to x: -240 y: pick random -100 to -20 repeat until x position > 230 change x by Car Speed end delete this clone </pre> The script starts with a 'when clicked' event, followed by 'hide', 'set size to 50 %', and 'set Car Speed to 4'. It then enters a 'forever' loop containing a 'wait pick random 1 to 2.5 seconds' block and a 'create clone of myself' block. After the loop, there is a 'when I start as a clone' event, followed by 'show', 'go to x: -240 y: pick random -100 to -20', a 'repeat until x position > 230' loop containing a 'change x by Car Speed' block, and finally 'delete this clone'.

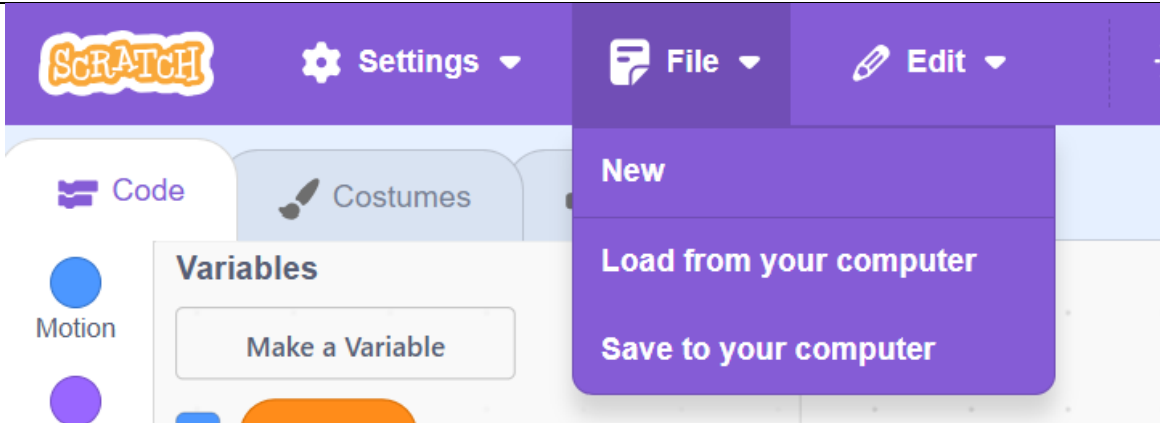

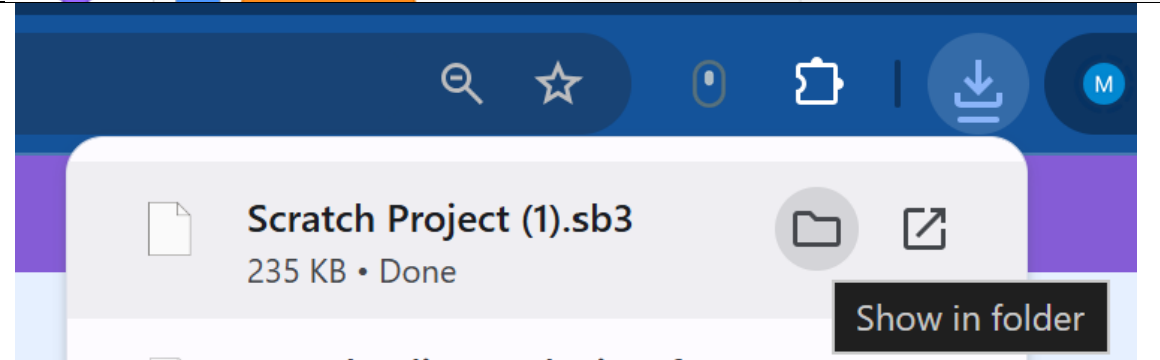

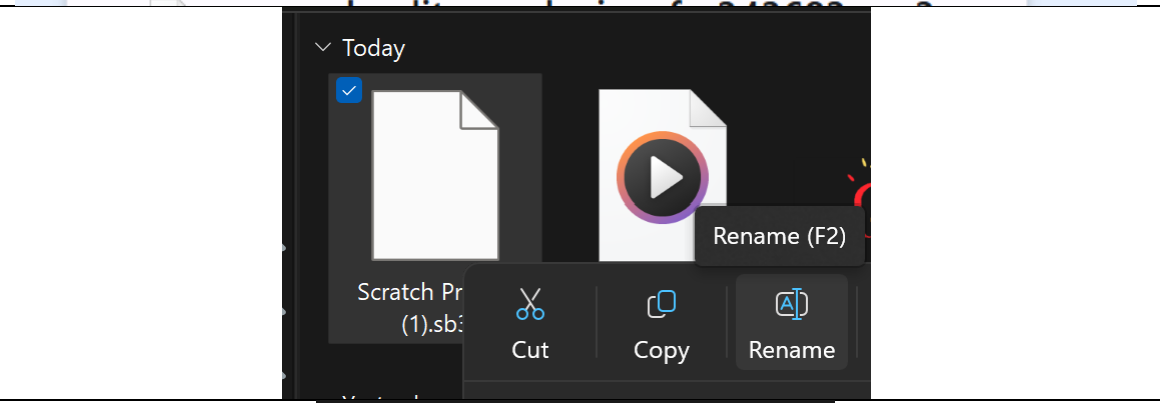

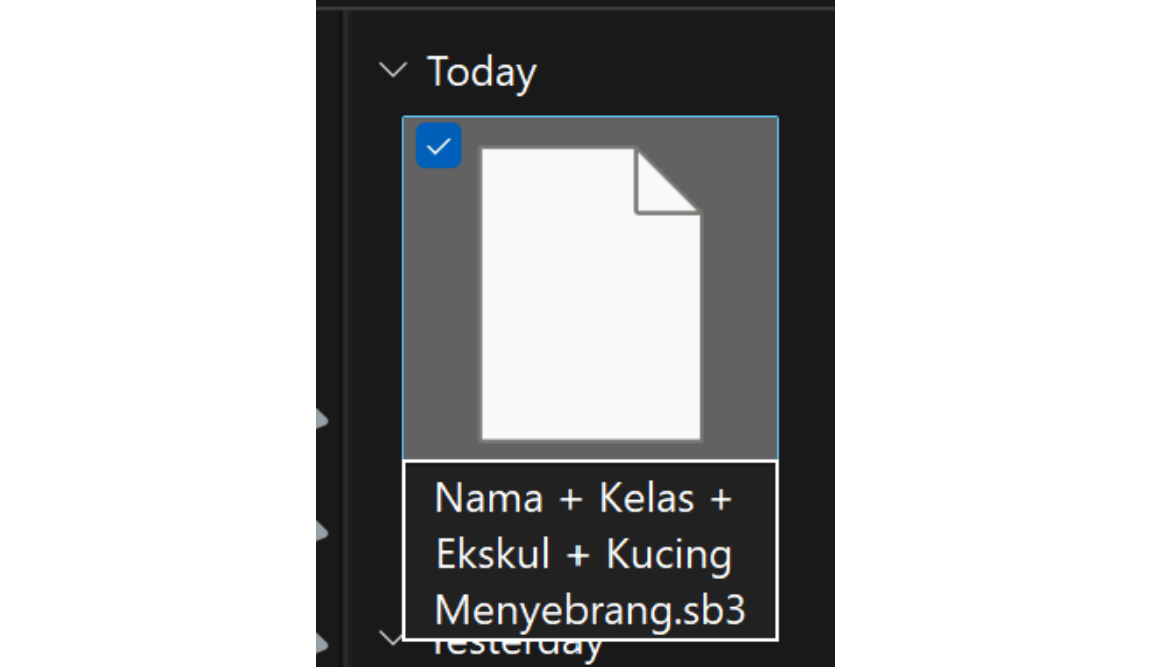

24 Berikan kode untuk "City Bus"

25 Berikan kode
untuk "Star"

26	Berikan kode untuk "Cat"	
27	Coba dimainkan untuk kucing menyebrang jalan raya hingga sampai ke star garis finis	

28	Klik "File > Save to your computer"	
29	Klik "Show in folder" hasil download an mu	
30	Klik kanan pada file tersebut dan pilih "Rename"	
31	Rename file menjadi ini	
32	Selesai
