1	Open "File Explorer" on your computer	 A screenshot of the Windows Start menu search interface. The search bar at the top contains the text 'File Explorer'. Below the search bar, the results are categorized into 'Best match', 'Settings', 'Web searches', 'Pinned', and 'Frequent'. In the 'Best match' section, the first result is 'File Explorer System', which has a yellow folder icon. To the right of this result, there is a larger preview card for 'File Explorer System'. This card also features the yellow folder icon and two buttons: 'Open' and 'Options'. The 'Open' button is circled in red. The 'Settings' section lists various settings related to File Explorer, such as 'File Explorer Options' and 'File Explorer Developer Settings'. The 'Web searches' section shows results for 'file explorer options' and 'file explorer this pc'. The 'Pinned' section lists pinned locations like 'Desktop', 'Downloads', 'Camera Monik', 'Pictures', and 'Videos'. The 'Frequent' section lists frequently accessed locations like 'AMORE' and 'Web-PKWU'. At the bottom of the screen, the taskbar is visible, showing the 'File Explorer' icon in the search bar, which is also circled in red.
2	Make a new folder	 A screenshot of the Windows File Explorer interface. The top navigation bar shows the back, forward, and up arrows, along with a refresh button and a view button. Below the navigation bar, the 'New' button is circled in red. The 'New' button has a plus sign icon and the text 'New'. Below the 'New' button, a dropdown menu is open, showing the 'Folder' option, which is also circled in red. The 'Folder' option has a yellow folder icon and the text 'Folder'. Other options in the 'New' menu include 'File', 'Shortcut', and 'Text document'.

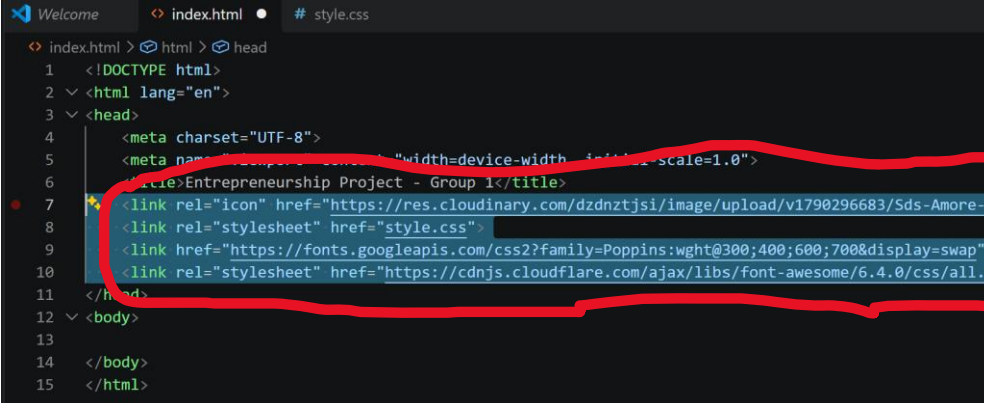

3	Give the name of the folder "PKWU-Web"	
4	Open the "PKWU-Web" folder that is still empty	
5	Right click on your mouse at the empty folder and click "Open in Terminal"	

6	You can see the pop up black CMD like this	
7	Write code. (code+space+dot)	
8	Click “Enter” on your keyboard	

9	The Visual Studio Code application will open automatically	
10	Click "New File"	
11	Write the new file "index.html"	

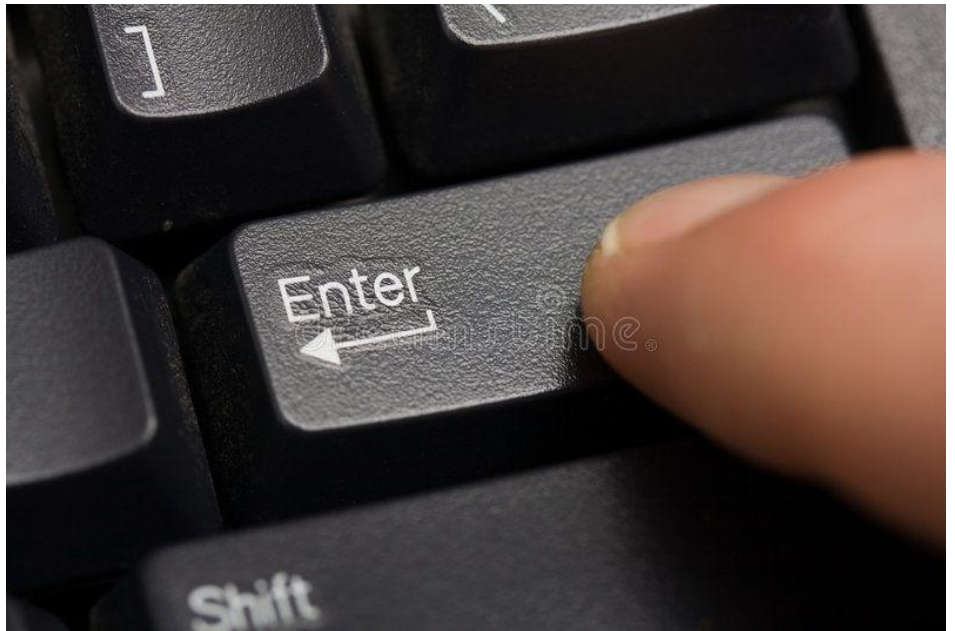

1 2	Click again "New File"	 This screenshot shows the Visual Studio Code Explorer sidebar. The 'PKWU-Web' folder is expanded, showing a file named 'index.html'. The 'New File' button, represented by a document icon with a plus sign, is circled in red in the top right corner of the Explorer panel.
1 3	Write the new file "style.css"	 This section contains two screenshots. The top screenshot shows the 'New File' button circled in red. The bottom screenshot shows the result: a new file named 'style.css' has been created and is now listed below 'index.html' in the Explorer sidebar. The 'style.css' file name is circled in red.
1 4	Click the "index.html" file	 This screenshot shows the Visual Studio Code interface. In the Explorer sidebar, the 'index.html' file is selected and circled in red. In the main editor area, the 'index.html' file is open, and its tab is also circled in red. The editor shows the beginning of an HTML document with a comment: '1 Generate code (Ctrl+I), or show this again.'

3 6	You can add your own photos by logging in at here https://console.cloudinary.com/app/c-dc0f5947f3b55331fbfc7cb9f3f027/assets/media_library/search?q=&view_mode=mosaic	

3 7	You need to sign up first; you can use your own Google account.	 The Cloudinary homepage features a dark blue header with navigation links: PLATFORM, SOLUTIONS, DEVELOPERS, RESOURCES, PARTNERS, PRICING, Support, Docs, and Login. Two buttons, 'CONTACT SALES' and 'SIGN UP FOR FREE', are in the top right, with the latter circled in red. The main content area has the heading 'The World's Visual Experiences Start Here' and a subheading 'AI-native platform and APIs for automating the entire image and video lifecycle at scale.' Below this is another 'SIGN UP FOR FREE' button, also circled in red, next to a 'CONTACT SALES' button. At the bottom, statistics show '4M Developers', '13K Brands', and 'Agent-Ready'.
3 8	You can login with your google account	 The sign-up page is titled 'Welcome to Cloudinary' with the tagline 'Get started - it's free.' It offers three sign-up options: 'SIGN UP WITH EMAIL', 'SIGN UP WITH GOOGLE' (circled in red), and 'SIGN UP WITH GITHUB'. Below these is a link to 'Log in' for existing users. A sidebar on the right displays logos of various brands like amc, minted, BOMBAS, adidas, Etsy, GRUBHUB, MATTIE, and Rapha, along with the text 'Trusted by 3M developers and 11K customers worldwide'.
3 9	After that, you will see this screen; simply select the upload option to upload your photos.	 The Media Library interface shows a left sidebar with navigation options like Home, Assets (highlighted with a red box), Image, Video, and Studio. The main area displays a grid of 233 assets. An 'Upload' button in the top right corner is circled in red. The assets include logos for 'AMORE PRIME SCHOOL' and various product images.
4 0	The photo you upload will appear in this list, and you'll be able to copy the image link later.	 This view shows the list of uploaded assets. A red box highlights a specific photo of students in a classroom, demonstrating how it appears in the asset list.

4 1	Then, when you click on the photo, there will be an option to copy the link to it.	
4 2	You'll get a long link; if you open it in a web browser, the photo will be publicly visible because it has been uploaded to the cloud system.	
4 3	You can use that link to replace the photo link I provided; feel free to use a photo of you and your classmates working on a group project, or a photo of the products you're selling.
