

No	Tutorial	Picture
1	Cari aplikasi Scratch (bisa di website / di aplikasi komputer kalian)	 The screenshot shows a Yahoo search page with the URL <code>id.search.yahoo.com/search?fr=mcafee&type=E211D714G0&p=scratch</code>. The search term 'scratch' is entered in the search bar. Below the search bar, the results show 'scratch.mit.edu' as the top result, with the title 'Scratch - Imagine, Program, Share'. A blue circle highlights the search bar and the first result.
2	Tunggu sampai tampilan Scratch terbuka seperti ini	 The screenshot shows the Scratch website homepage. The header includes the Scratch logo and navigation links: 'Create', 'Explore', 'Ideas', 'Join Scratch', and 'Sign In'. The main content area features a large banner with the text 'Create stories, games, and animations. Share with others around the world.' and buttons for 'Start Creating' and 'Join'. Below the banner, there are sections for 'Featured Projects' and 'Featured Studios'.
3	Lihat di pojok kiri atas sebelahnya logo "Scratch", klik yang "Create"	 This is a close-up screenshot of the top navigation bar of the Scratch website. It shows the Scratch logo on the left and the 'Create', 'Explore', and 'Ideas' buttons on the right. A red circle highlights the 'Create' button.
4	Sampai terbuka tampilan seperti ini	 The screenshot shows the Scratch programming environment. On the left is a 'Scripts' panel with various code blocks. In the center is a stage area with a cat sprite. On the right is a 'Sprites' panel with a list of available sprites. A small video player is visible in the bottom right corner of the stage area.

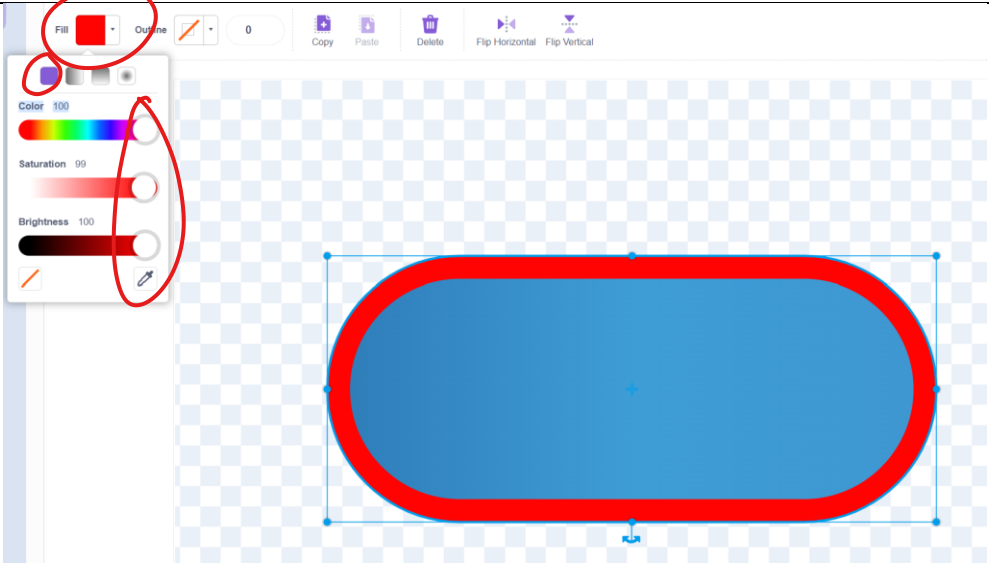

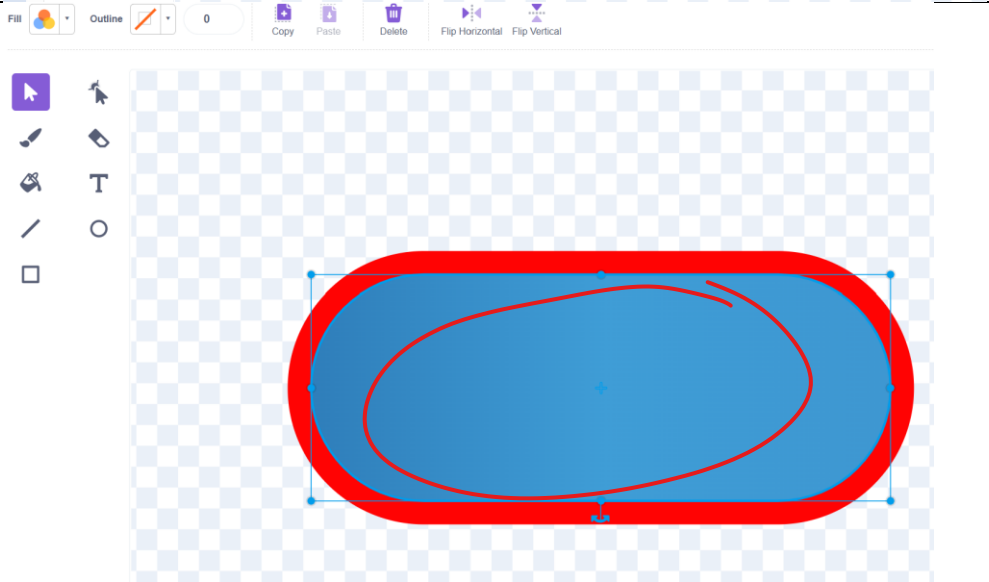

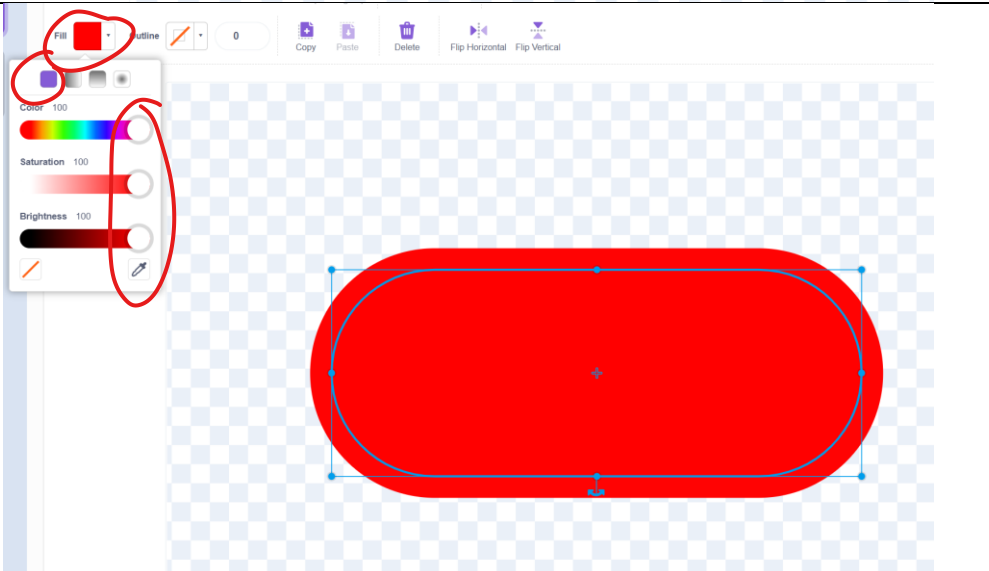

5	Close saja pop up video tutorial di pojok kiri bawah	
6	Hapus sprite Kucing di tampilan awal	
7	Klik "Choose a Sprite"	
8	Sampai terbuka tampilan seperti ini	

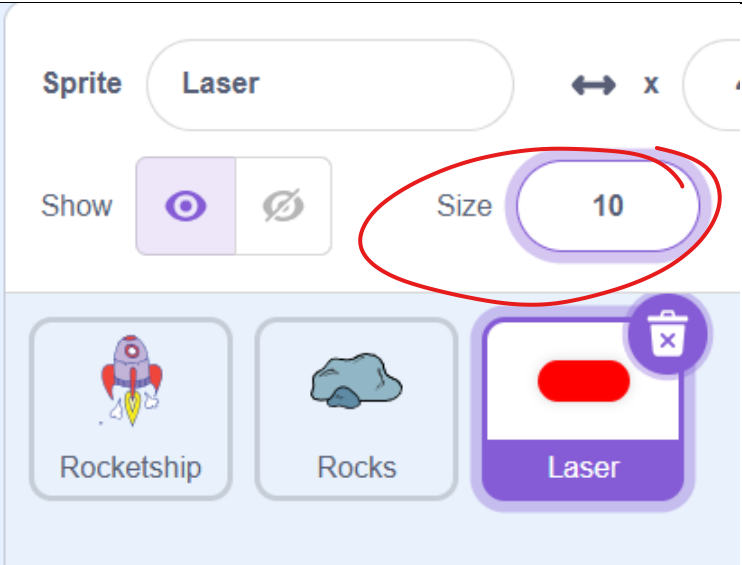

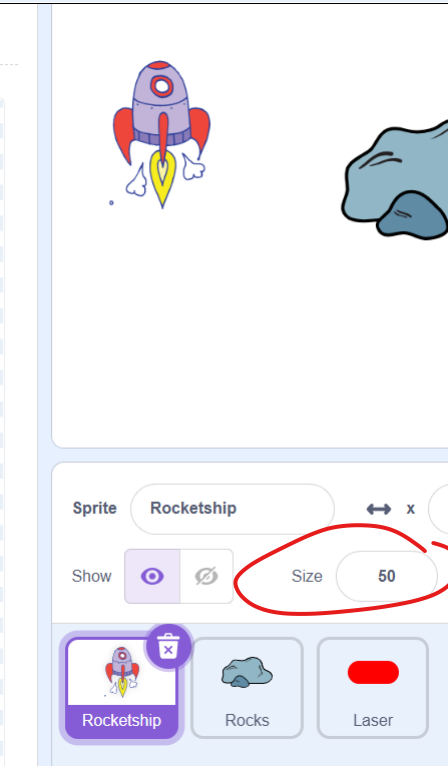

9	Search "Rocketship" dan klik gambar sprite "Rocketship" tersebut	
10	Hingga sprite "Rocketship" muncul di halaman utama	
11	Klik "Choose a Sprite" lagi	

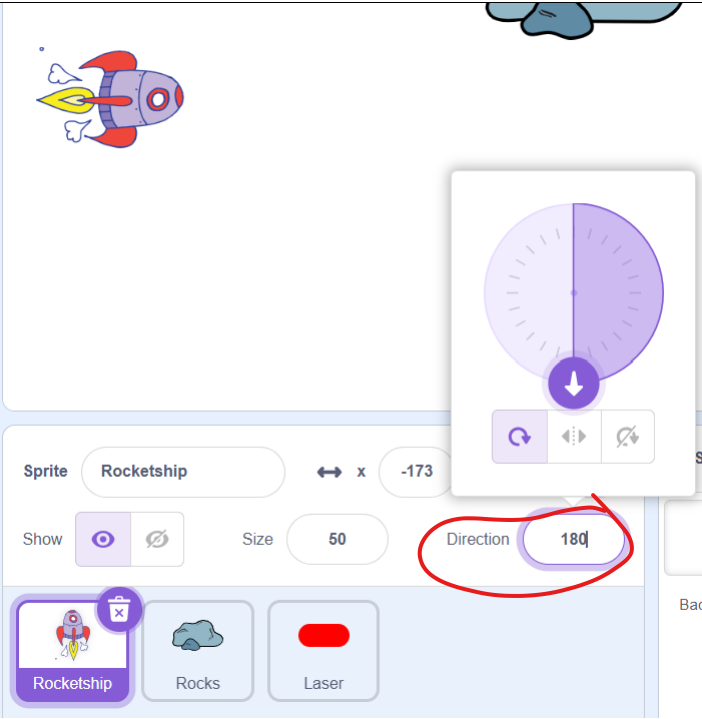

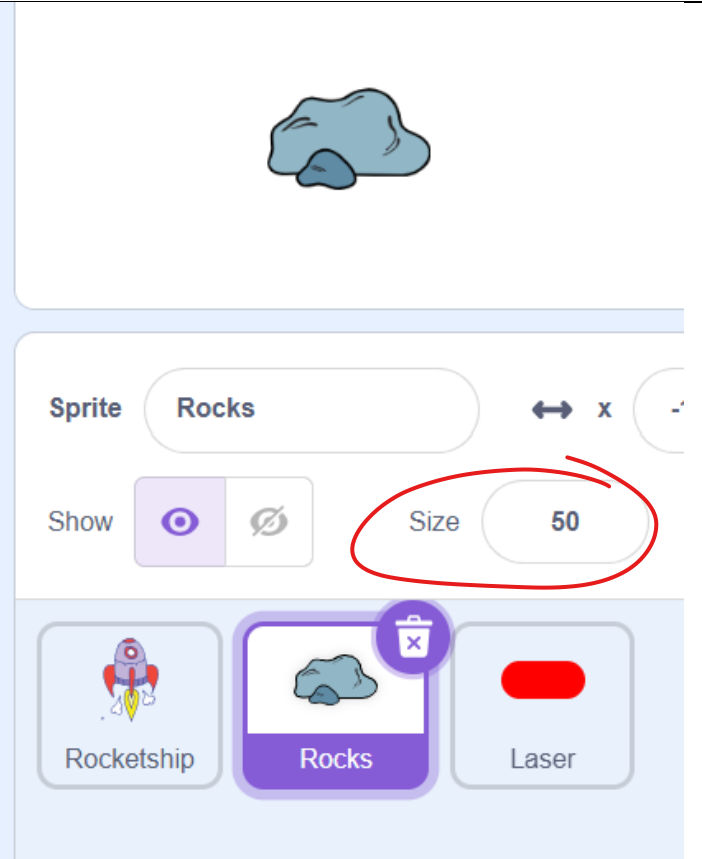

12 Search "Rocks" dan klik gambar sprite "Rocks" tersebut	
13 Hingga sprite "Rocks" muncul di halaman utama	
14 Klik "Choose a Sprite" lagi	

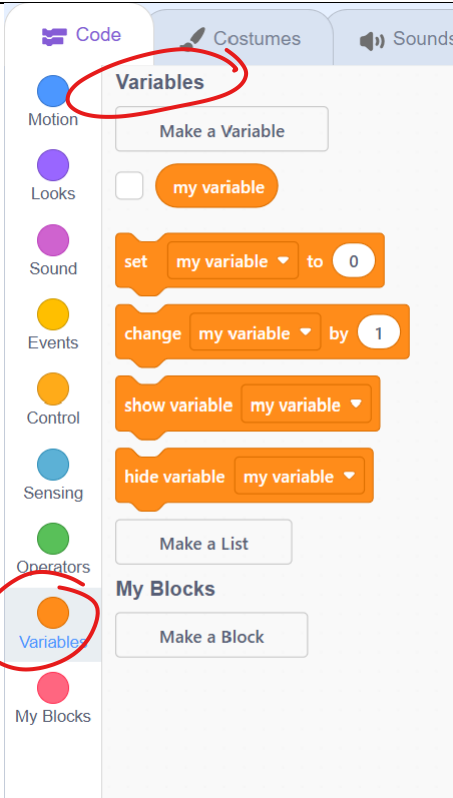

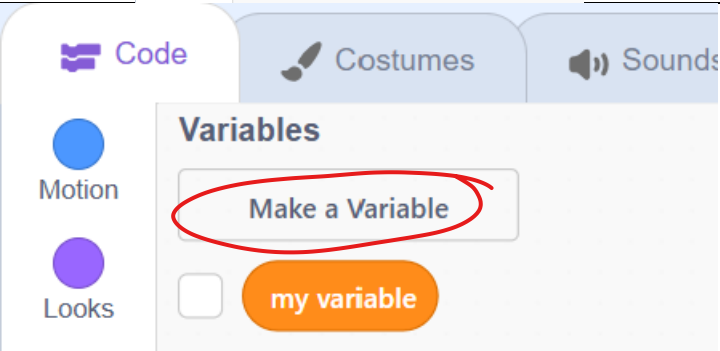

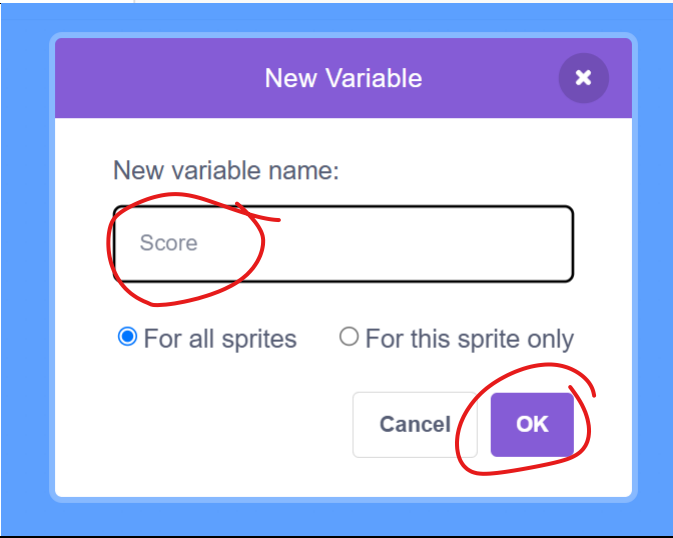

15 Search "Button2" dan klik gambar sprite "Button2" tersebut	
16 Hingga sprite "Button2" muncul di halaman utama	

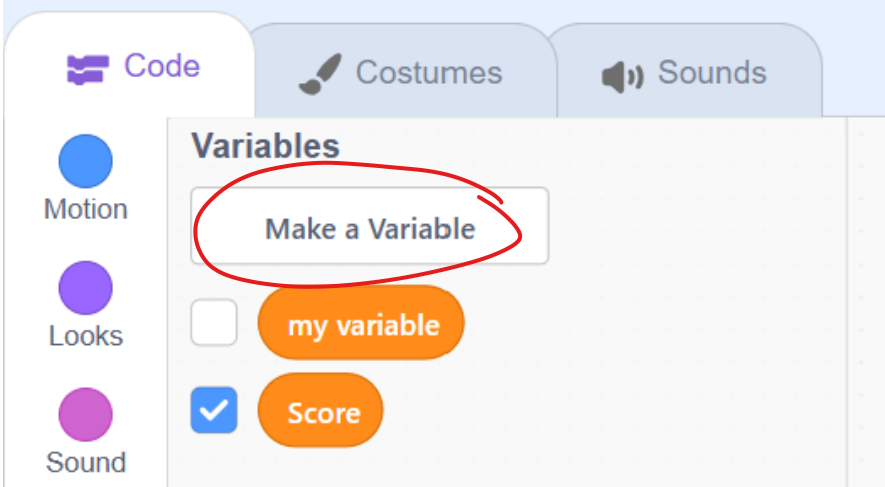

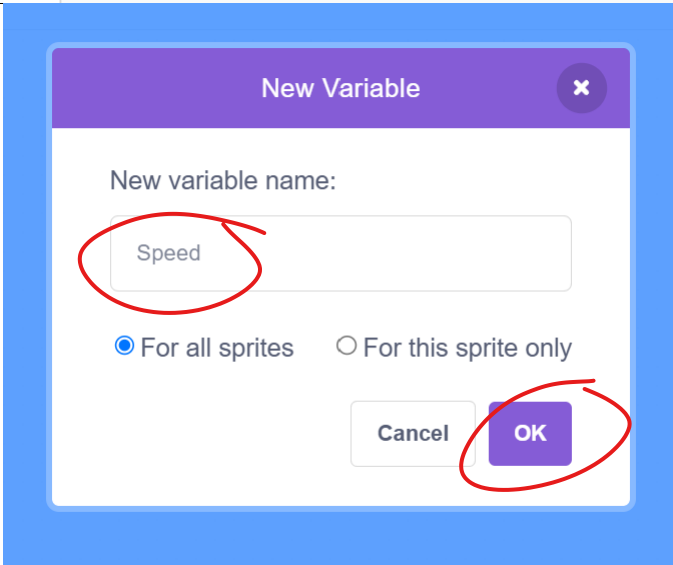

17 Rename nama "Button2" menjadi "Laser"	
18 Masih pada sprite Lase, klik menu "Costumes"	
19 Klik gambar sprites "Laser" tersebut	

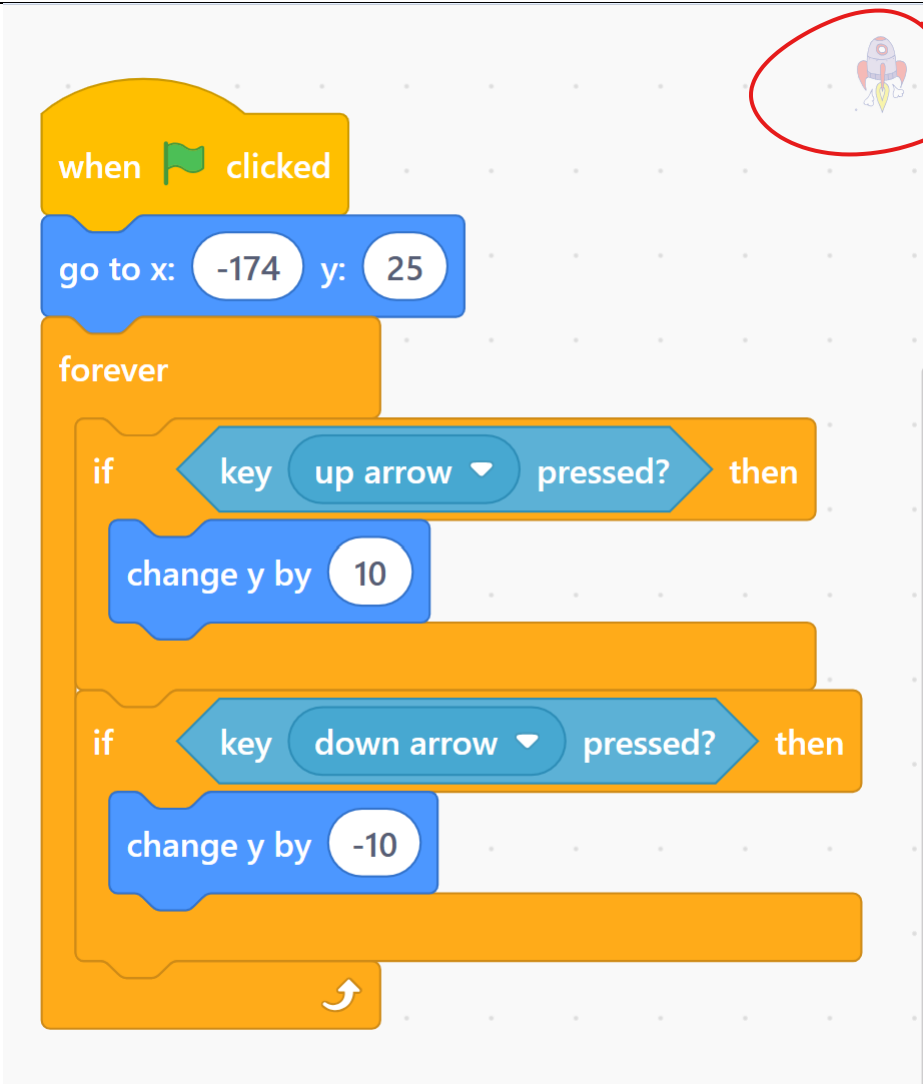

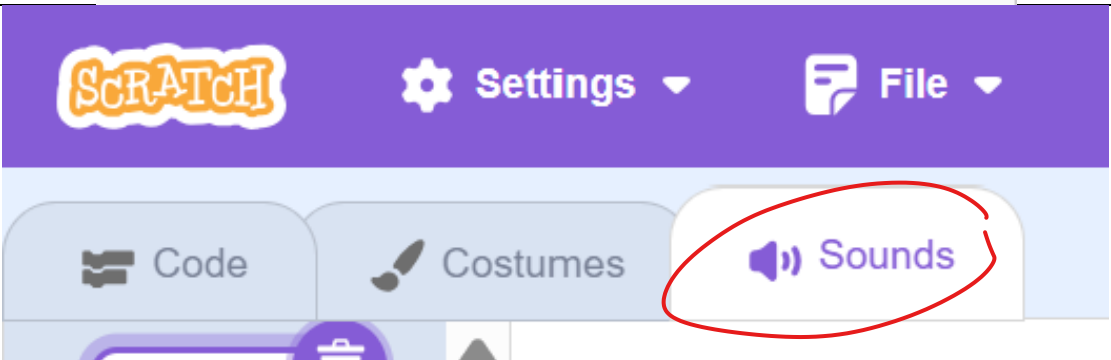

20	Klik bagian luar nya dari Laser lalu klik “Fill” untuk mengganti colour dan pilih warna nya merah	
21	Klik bagian dalam laser tersebut dan kita akan ubah warna dari laser tersebut menjadi warna merah juga	
22	Klik “Fill” dan ubah warna nya menjadi warna merah seperti pada gambar yang kulampirkan	

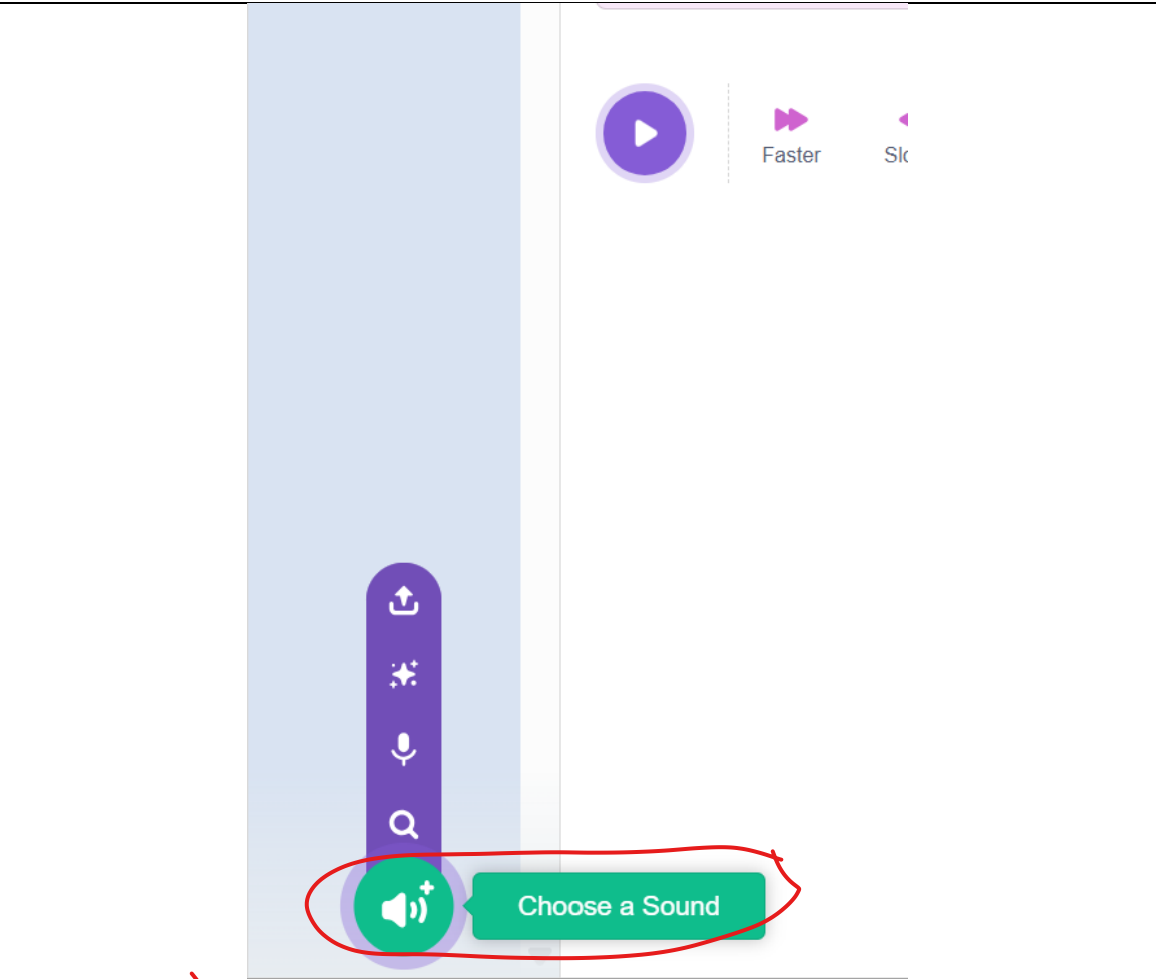

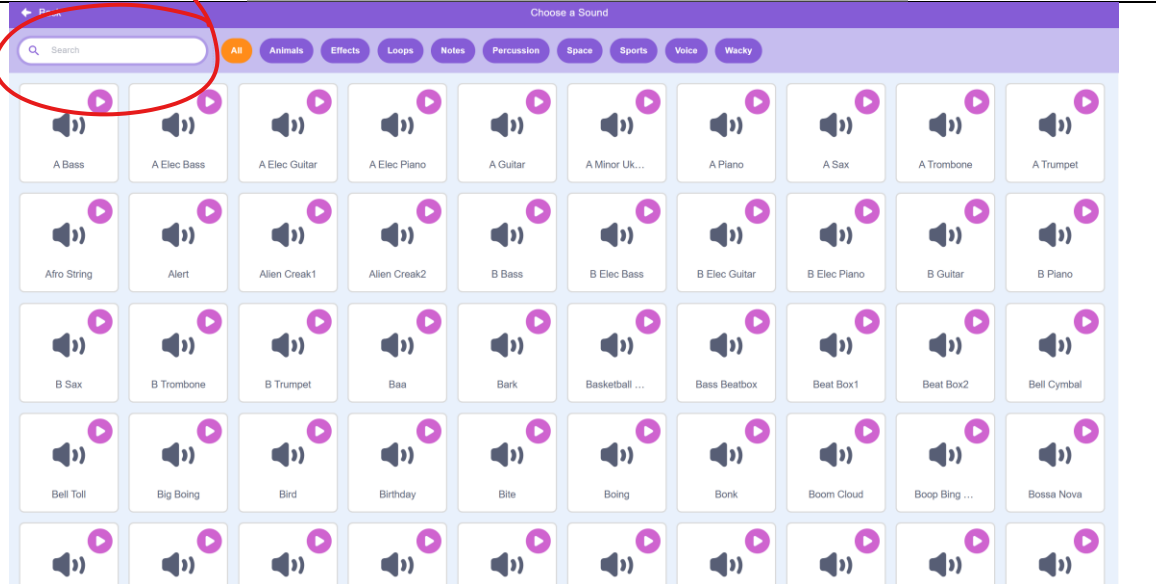

23	Ubah ukuran Laser menjadi 10	
24	Ubah ukuran "Rocketship" menjadi 50	

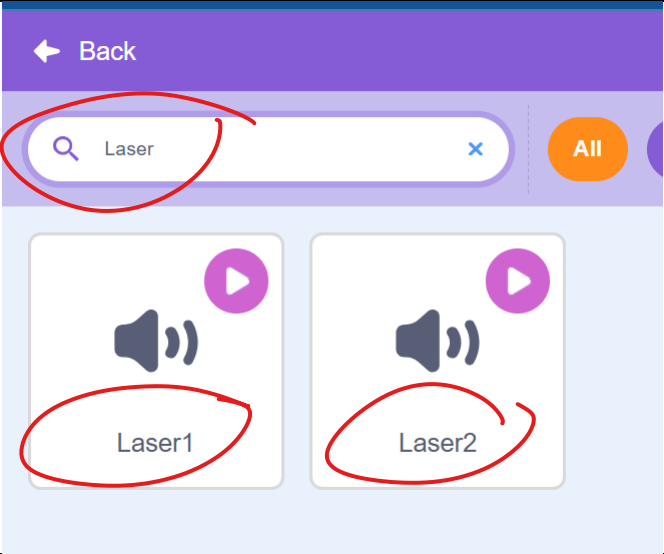

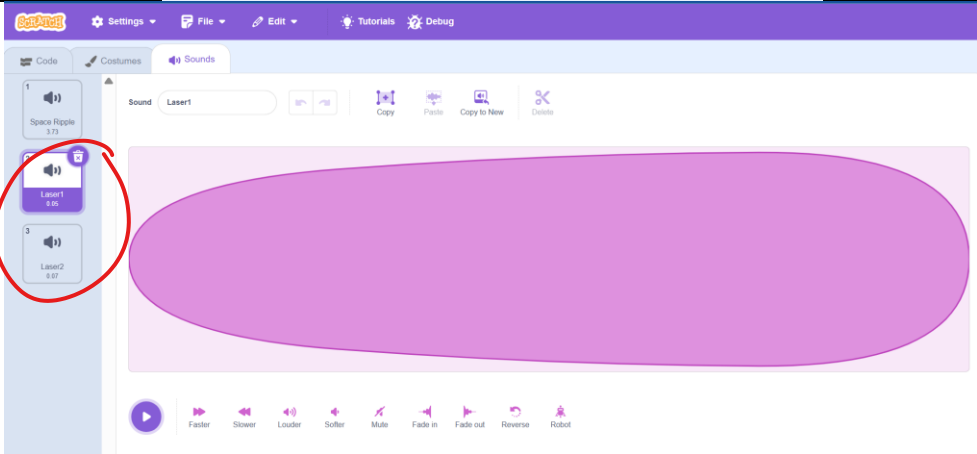

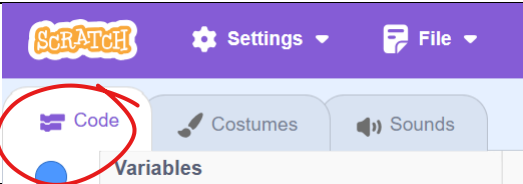

25	Ubah direction dari "Rocketship" menjadi 180	 The screenshot shows the Scratch interface with the 'Rocketship' sprite selected. A direction dial is open, showing 180 degrees. The 'Direction' field in the properties panel is also set to 180 and is circled in red. The 'Rocks' and 'Laser' sprites are visible in the bottom panel.
26	Ubah "Rocks" menjadi berukuran 50	 The screenshot shows the Scratch interface with the 'Rocks' sprite selected. The 'Size' field in the properties panel is set to 50 and is circled in red. The 'Rocketship' and 'Laser' sprites are visible in the bottom panel.

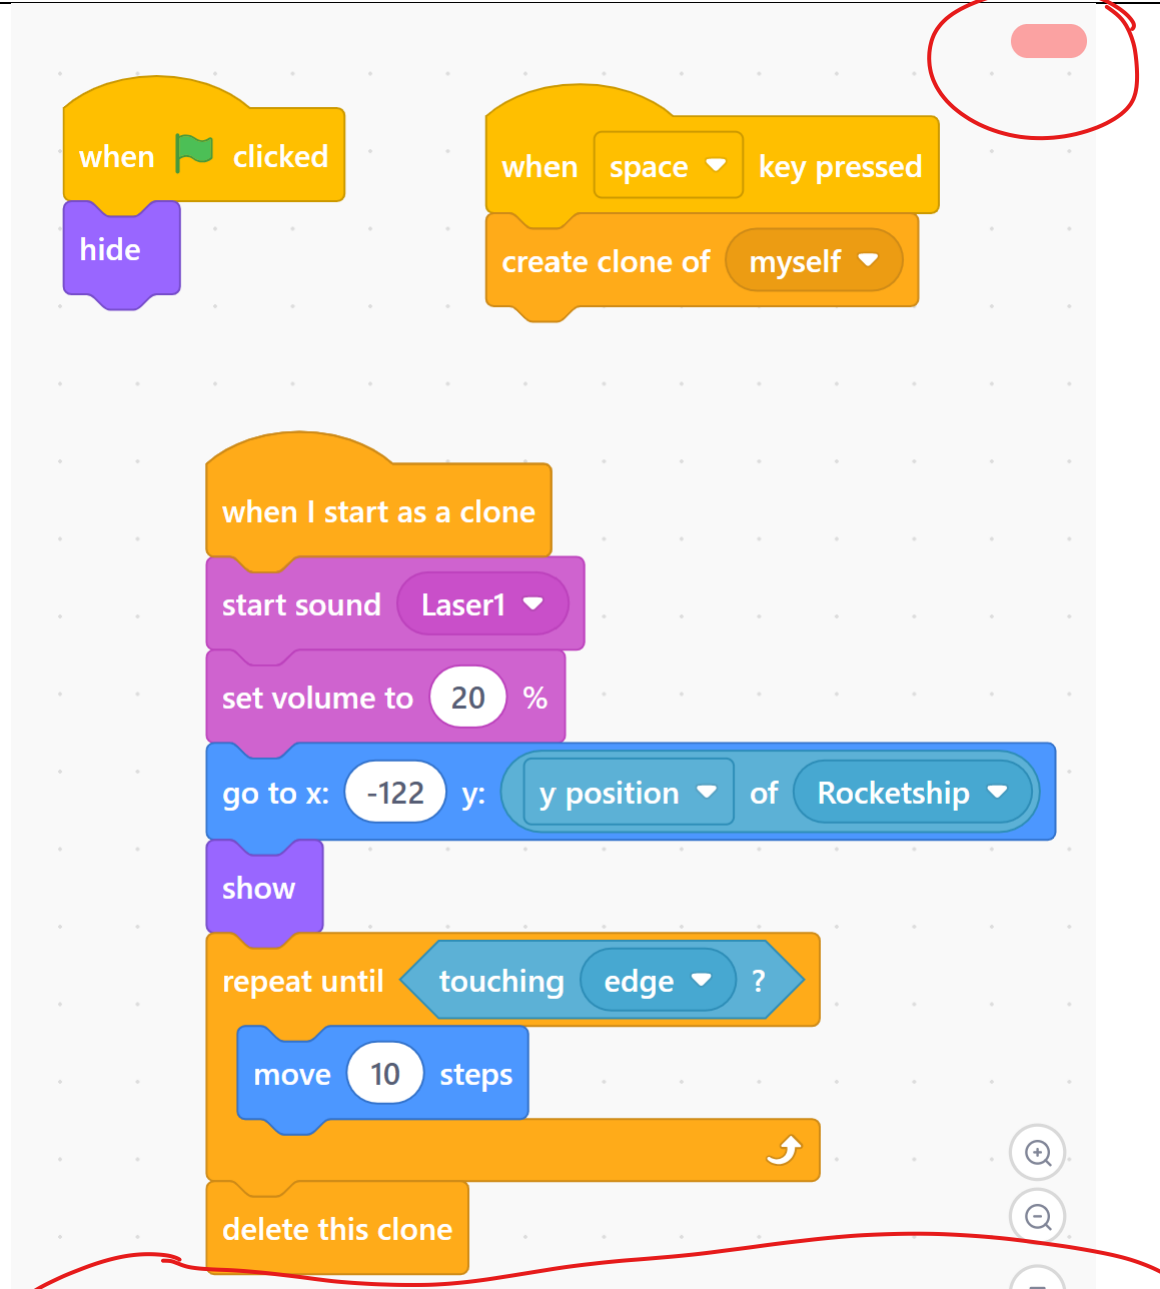

27	Klik "Variables"	
28	Klik "Make a Variable"	
29	Ketik "Score" lalu klik "OK"	

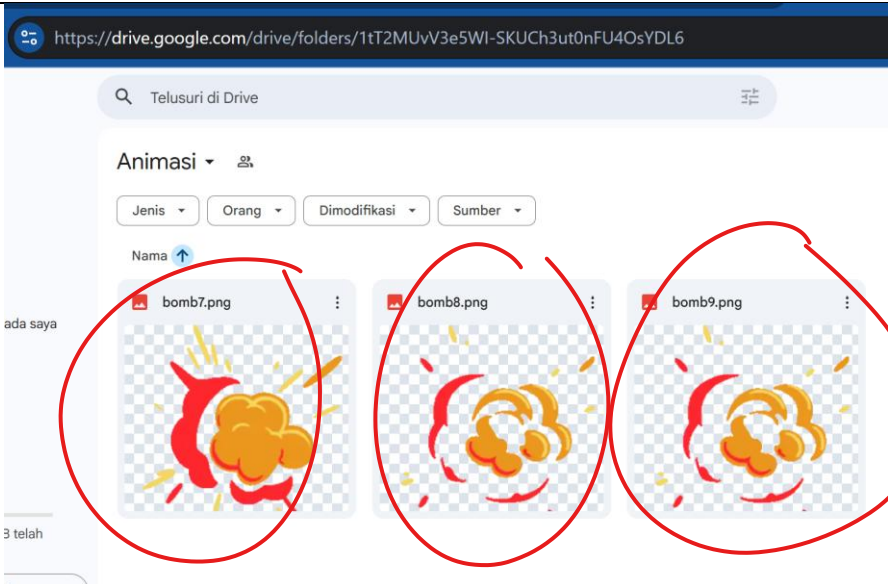

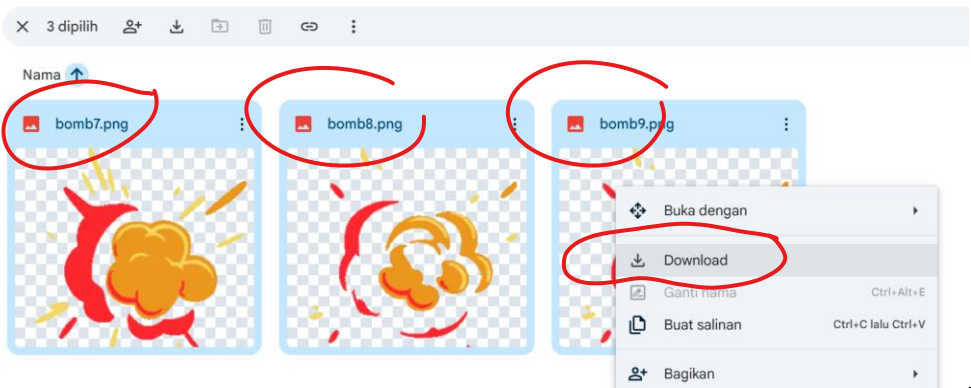

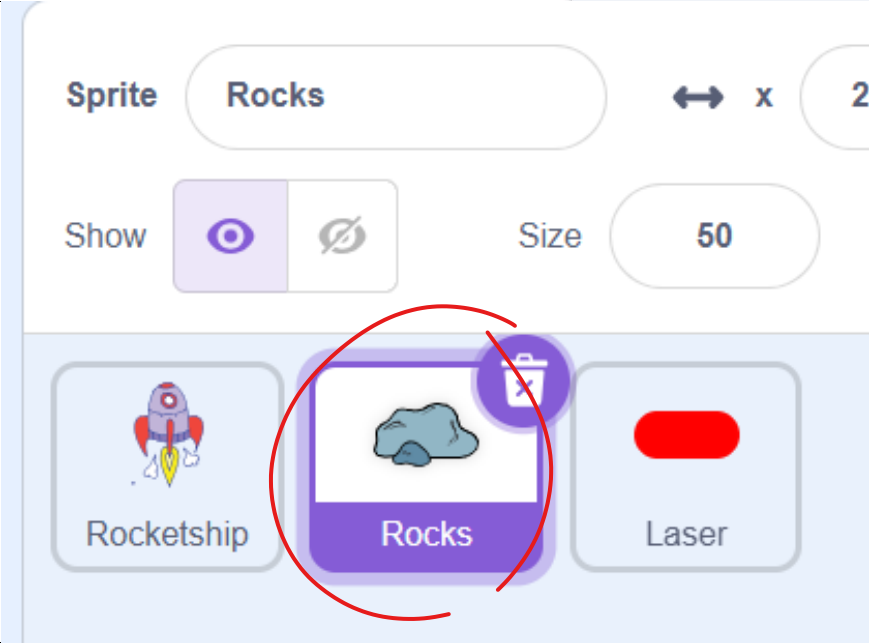

30	Klik "Make a Variable" lagi	
31	Ketik "Speed" lalu klik "OK"	

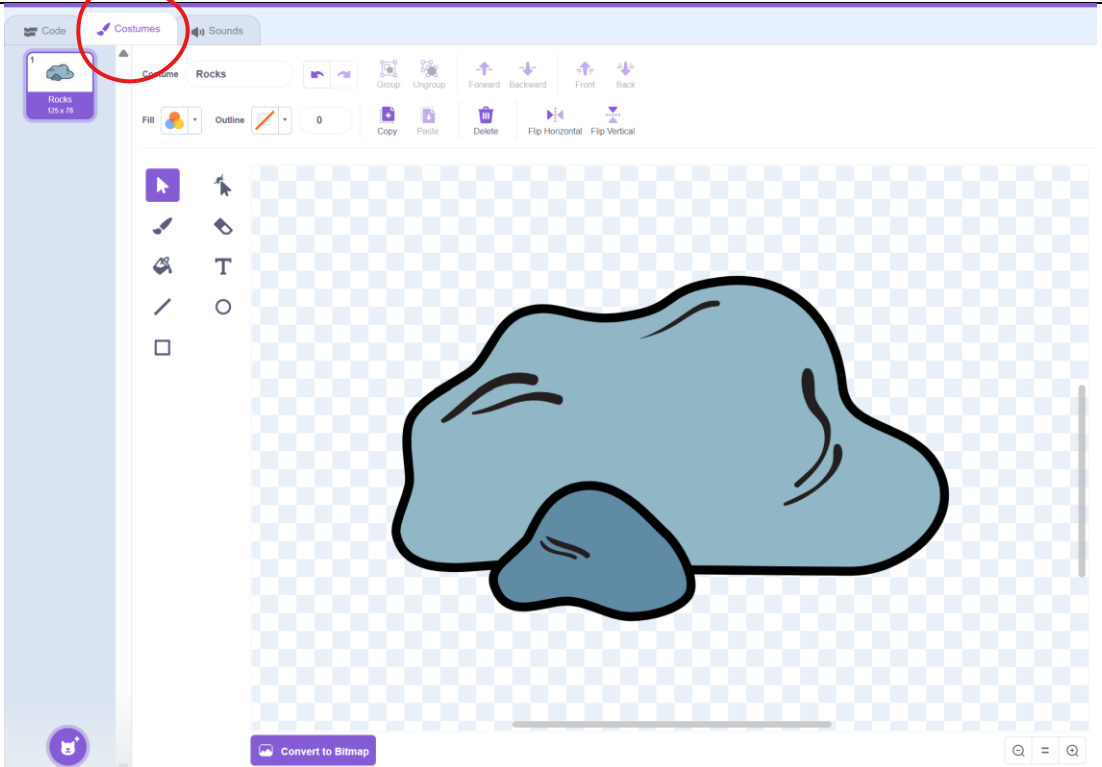

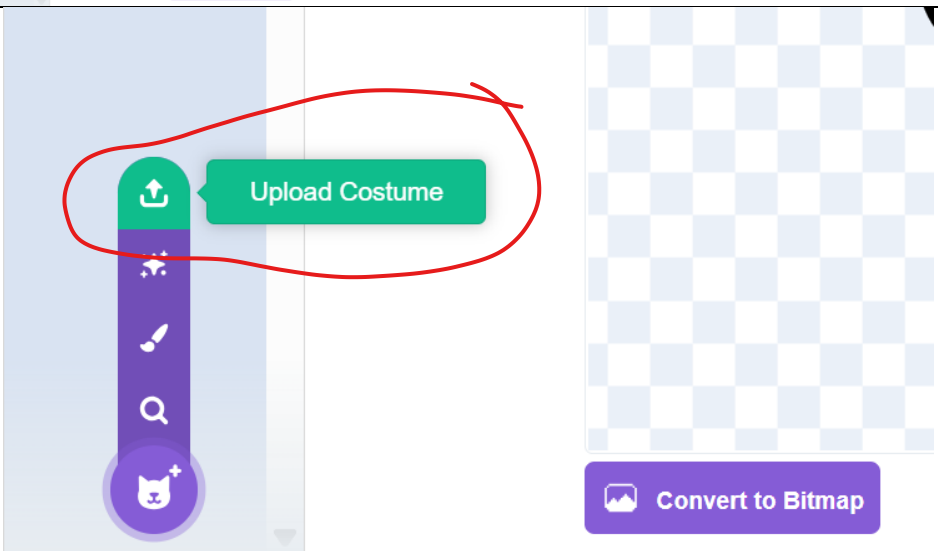

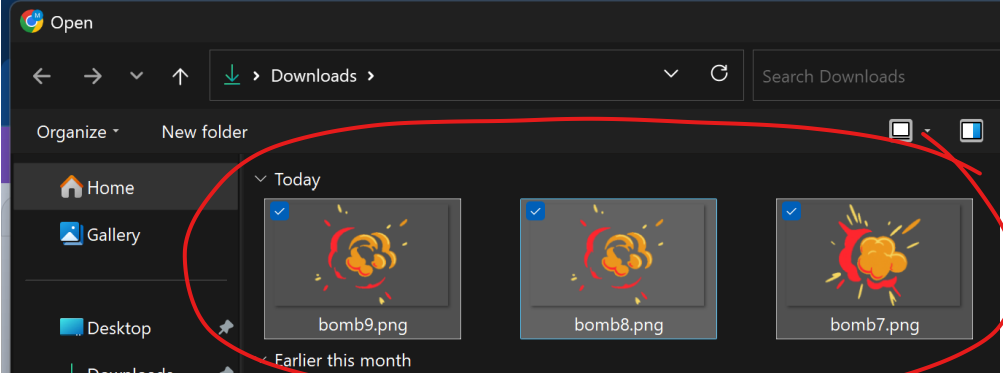

32	Untuk "Rocketship" berikan potongan kode ini	 The image shows a Scratch script for a rocketship. It starts with a 'when green flag clicked' event block. This is followed by a 'go to x: -174 y: 25' block. Then, there is a 'forever' loop containing two 'if' blocks. The first 'if' block checks 'if key up arrow pressed?' and if true, it executes 'change y by 10'. The second 'if' block checks 'if key down arrow pressed?' and if true, it executes 'change y by -10'. A red circle highlights a rocketship sprite in the top right corner of the workspace.
33	Klik menu "Sounds" di pojok kiri atas	 The image shows the Scratch interface. At the top, there is a purple header bar with the 'SCRATCH' logo, a 'Settings' button with a gear icon, and a 'File' button with a document icon. Below this is a light blue bar with three buttons: 'Code' (with a script icon), 'Costumes' (with a paintbrush icon), and 'Sounds' (with a speaker icon). A red circle highlights the 'Sounds' button.

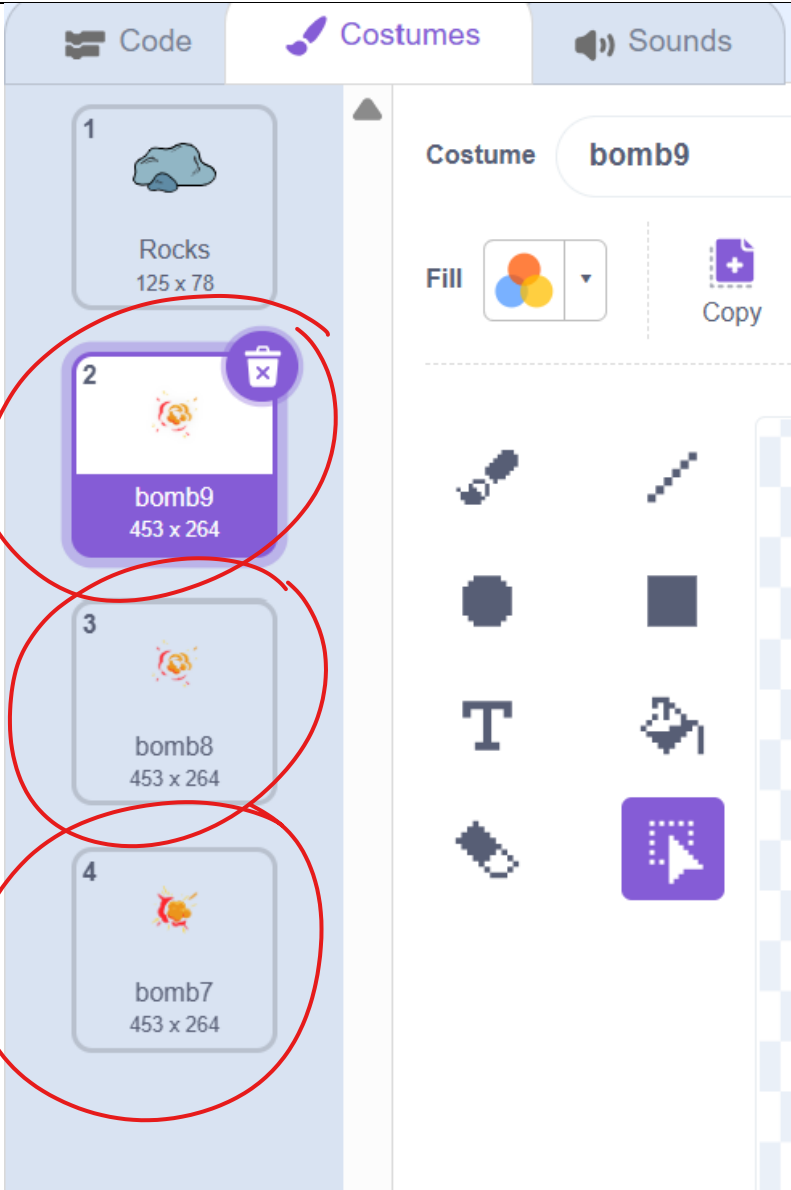

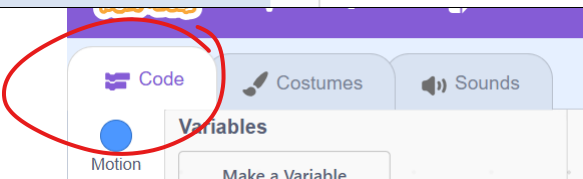

34	Klik “Choose a Sound” di bagian pojok bawah kiri	
35	Hingga muncul banyak “Choose a Sound”	

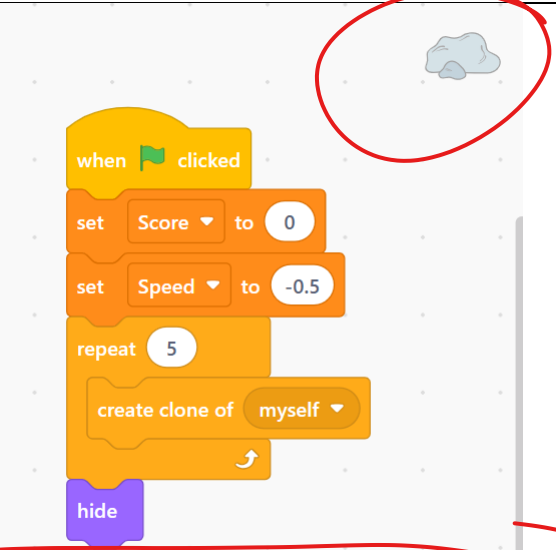

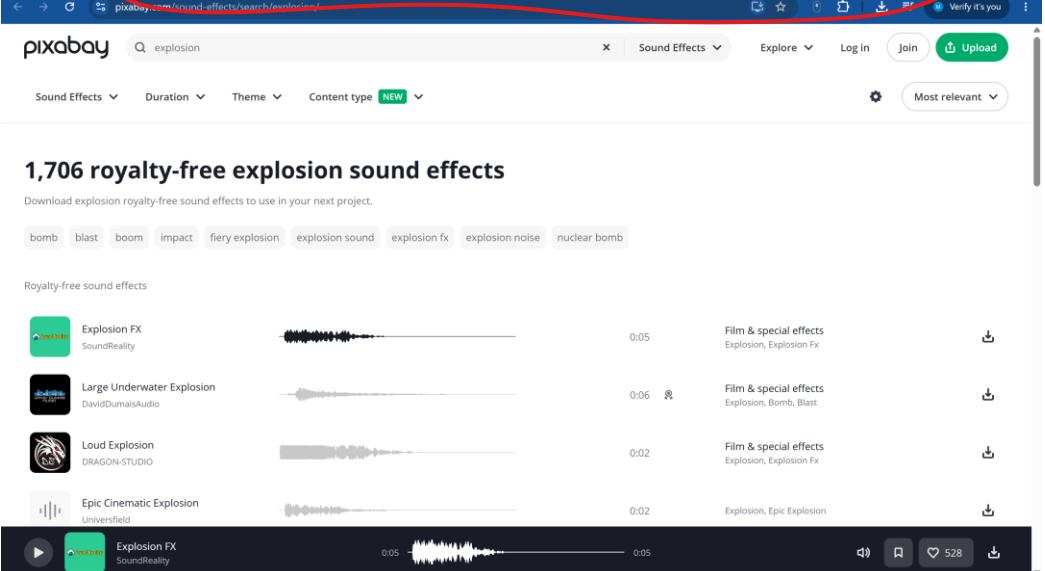

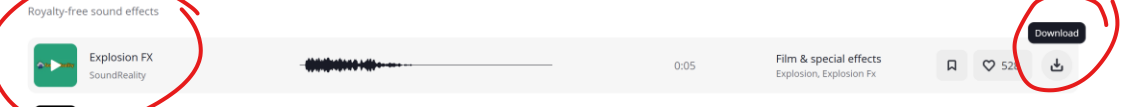

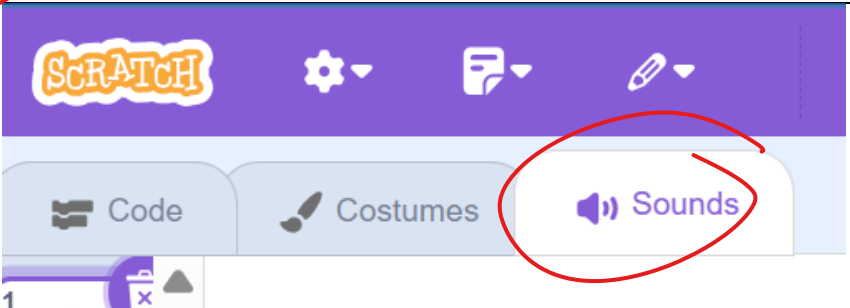

36	Search sound "Laser"	 A screenshot of the Scratch Sounds library search results for "Laser". The interface has a purple header with a "Back" button. Below the header is a search bar containing the text "Laser" and a magnifying glass icon. To the right of the search bar is an orange "All" button. Below the search bar are two sound cards. The first card is labeled "Laser1" and the second card is labeled "Laser2". Both cards feature a speaker icon and a play button. Red circles highlight the search bar and the "Laser1" and "Laser2" labels.
37	Klik keduanya hingga Laser1 dan Laser2 muncul seperti berikut ini	 A screenshot of the Scratch Sounds library. The interface has a purple header with the Scratch logo and menu items: Settings, File, Edit, Tutorials, and Debug. Below the header are tabs for Code, Costumes, and Sounds. The Sounds tab is selected. On the left side, there is a list of sound cards. The first card is "Space Ripple" (379), the second is "Laser1" (8.95), and the third is "Laser2" (8.97). Red circles highlight the "Laser1" and "Laser2" sound cards. The main area shows a large purple oval shape. At the bottom, there are playback controls: a play button, a volume slider, and buttons for Faster, Slower, Louder, Softer, Mute, Fade in, Fade out, Reverse, and Repeat.
38	Klik kembali menu "Code"	 A screenshot of the Scratch interface. The interface has a purple header with the Scratch logo and menu items: Settings, File, and Variables. Below the header are tabs for Code, Costumes, and Sounds. The Code tab is selected. A red circle highlights the "Code" tab.

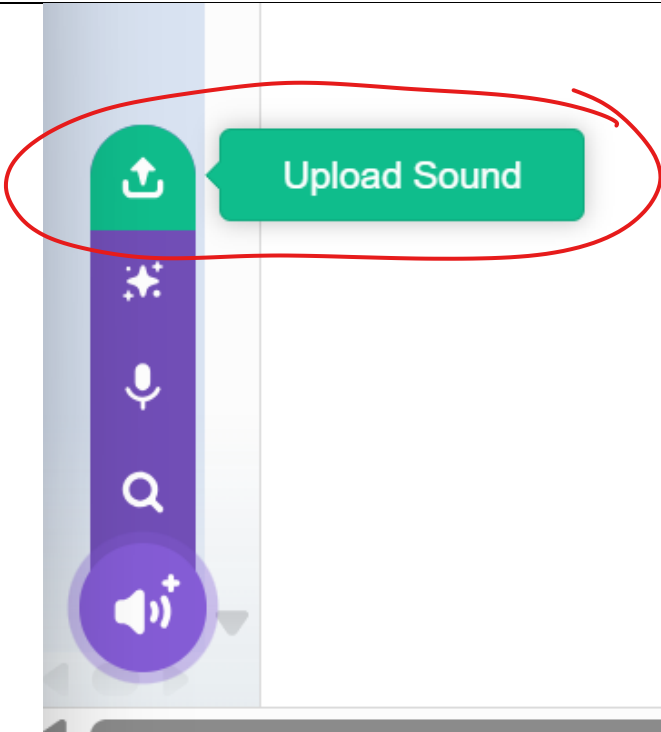

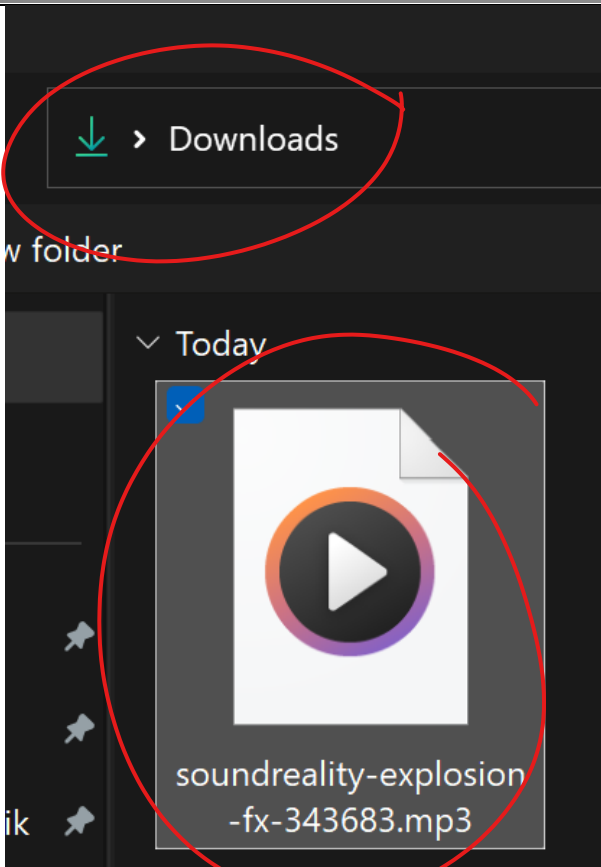

39	Untuk sprites "Laser" berikan potongan kode ini	
40	Buka link google drive ini	<a data-bbox="418 1396 1477 1428" href="https://drive.google.com/drive/folders/1tT2MUvV3e5WI-SKUCH3ut0nFU4OsYDL6">https://drive.google.com/drive/folders/1tT2MUvV3e5WI-SKUCH3ut0nFU4OsYDL6

		
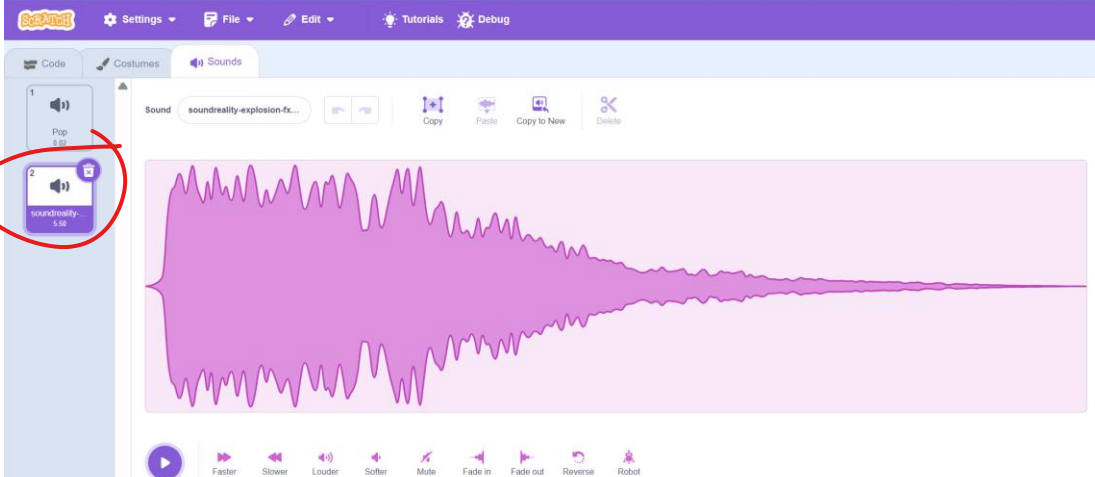

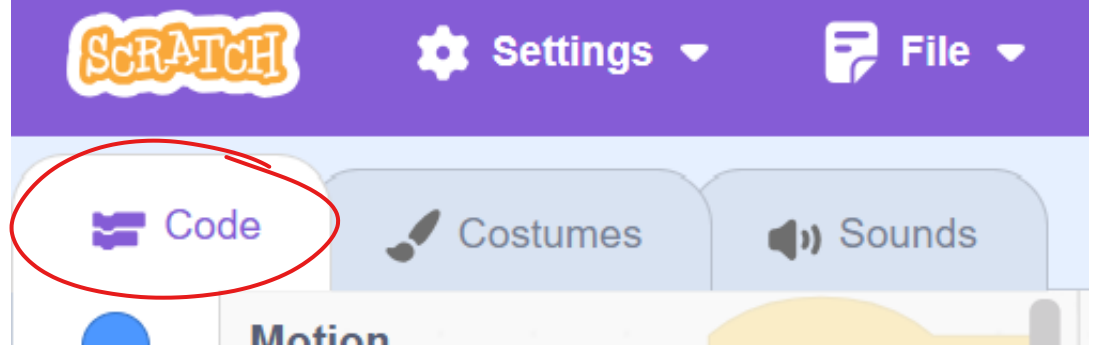

41	Kalian harus mendownload 3 gambar bomb tersebut	
42	Klik sprites "Rocks"	

43	Klik menu "Costume"	
44	Di pojok kiri bawah pilih "Upload Costume"	
45	Upload ke-3 gambar bomb yang sudah didownload tadi dari Google Drive	https://drive.google.com/drive/folders/1tT2MUvV3e5WI-SKUCh3ut0nFU4OsYDL6 

46	Maka 3 gambar costume bom akan muncul	 The screenshot shows the Scratch 'Costumes' menu. At the top, there are three tabs: 'Code', 'Costumes', and 'Sounds'. The 'Costumes' tab is active, displaying a list of costumes. Three costumes are circled in red: 'Rocks' (125 x 78), 'bomb9' (453 x 264), 'bomb8' (453 x 264), and 'bomb7' (453 x 264). The 'bomb9' costume is currently selected, and its details are shown on the right, including a 'Fill' color picker and a 'Copy' button. Below the costumes list, there are various drawing tools like a pencil, eraser, and selection tools.
47	Kembali ke menu "Code"	 This is a close-up screenshot of the Scratch menu bar. The 'Code' tab is circled in red, indicating the action of returning to the 'Code' menu.

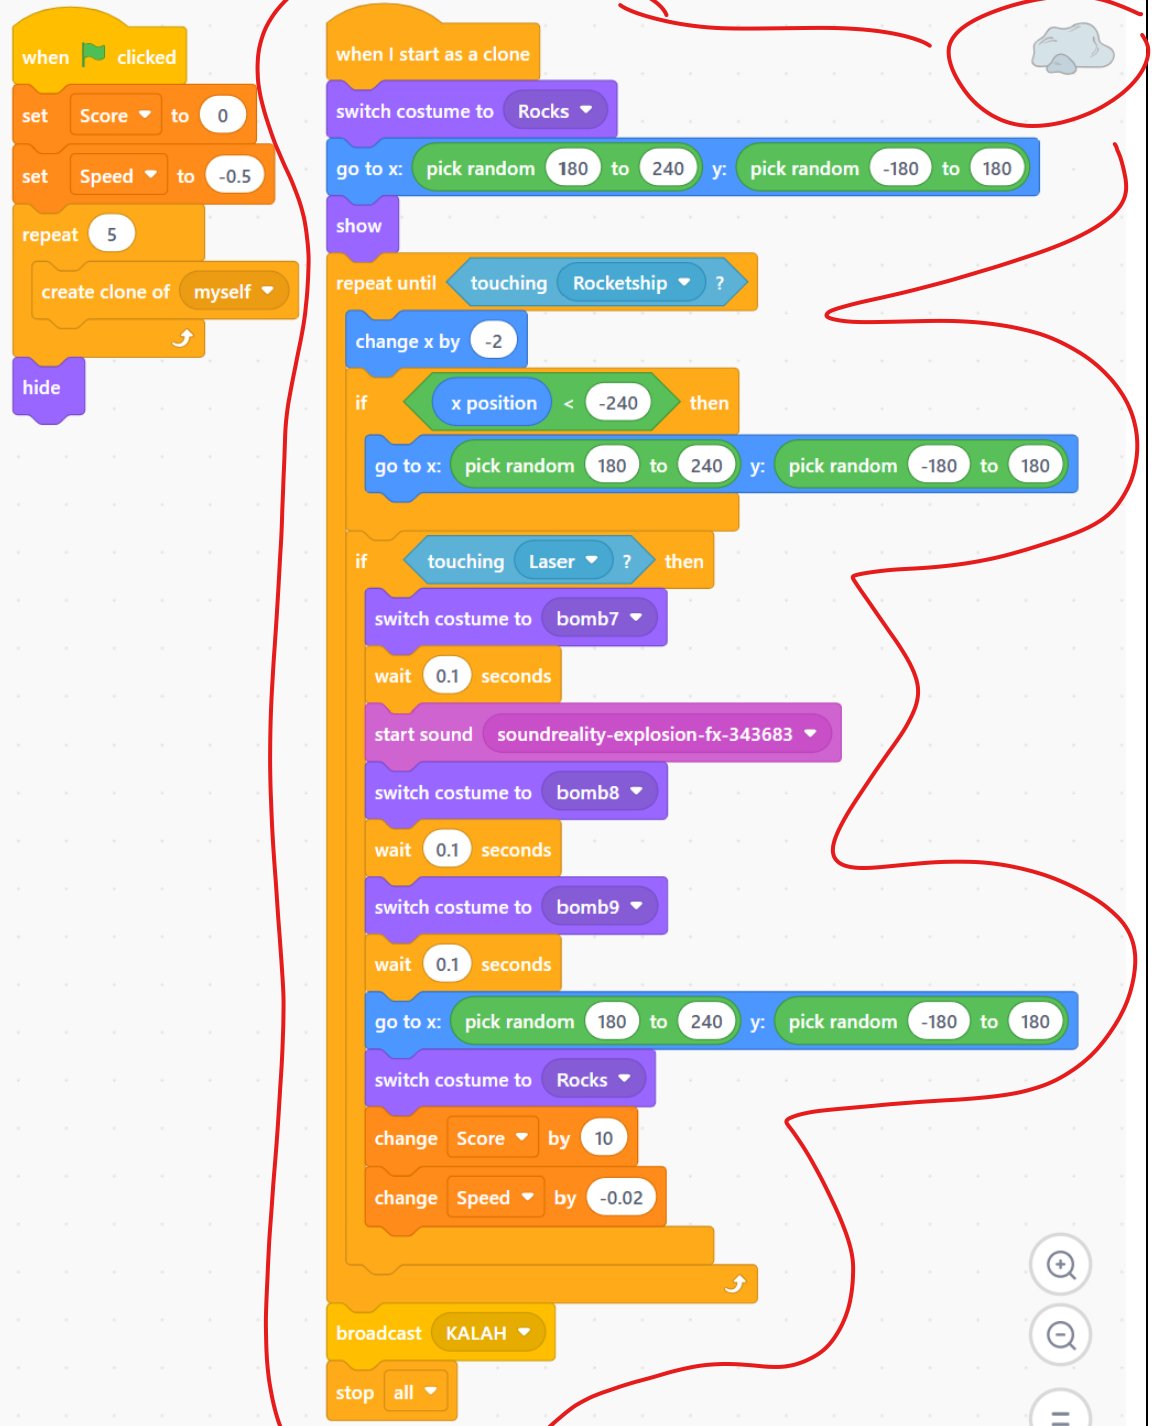

48 Untuk "Rocks" berikan potongan kode ini	
49 Buka link ini di google	https://pixabay.com/sound-effects/search/explosion/ 
50 Download sound untuk explosion	
51 Klik menu "Sounds"	

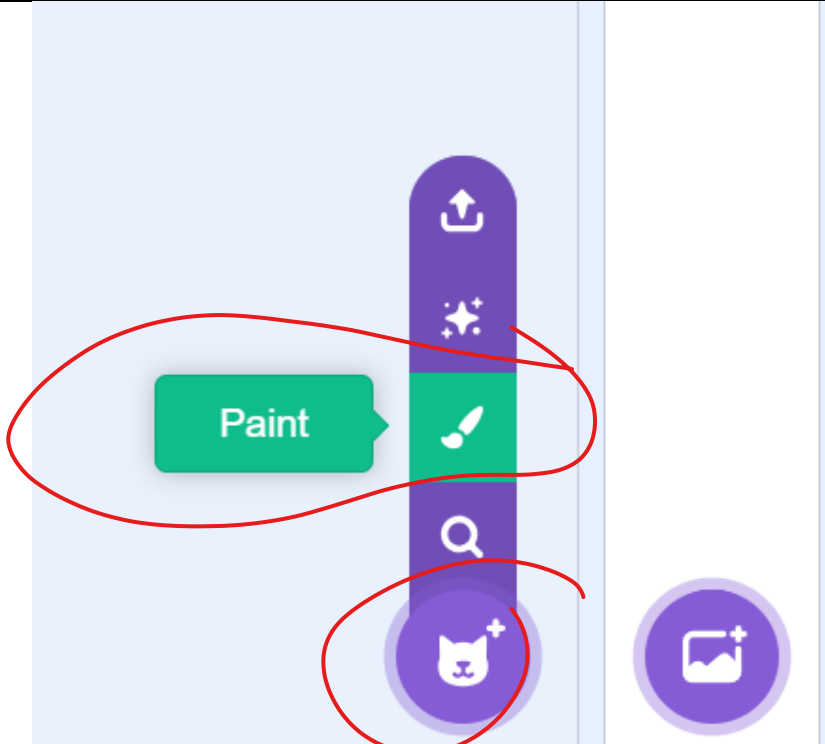

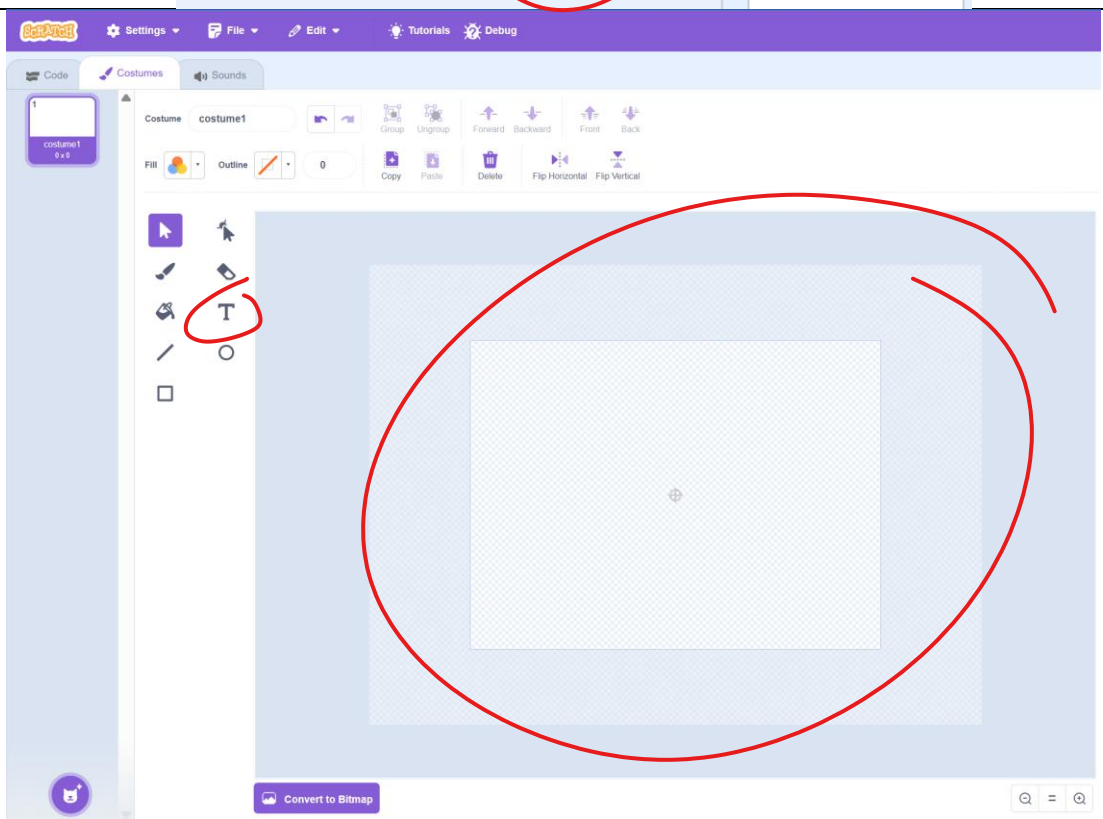

52	Klik di pojok kiri bawah pilih "Upload Sound"	
53	Upload sound yang barusan saja kamu download	

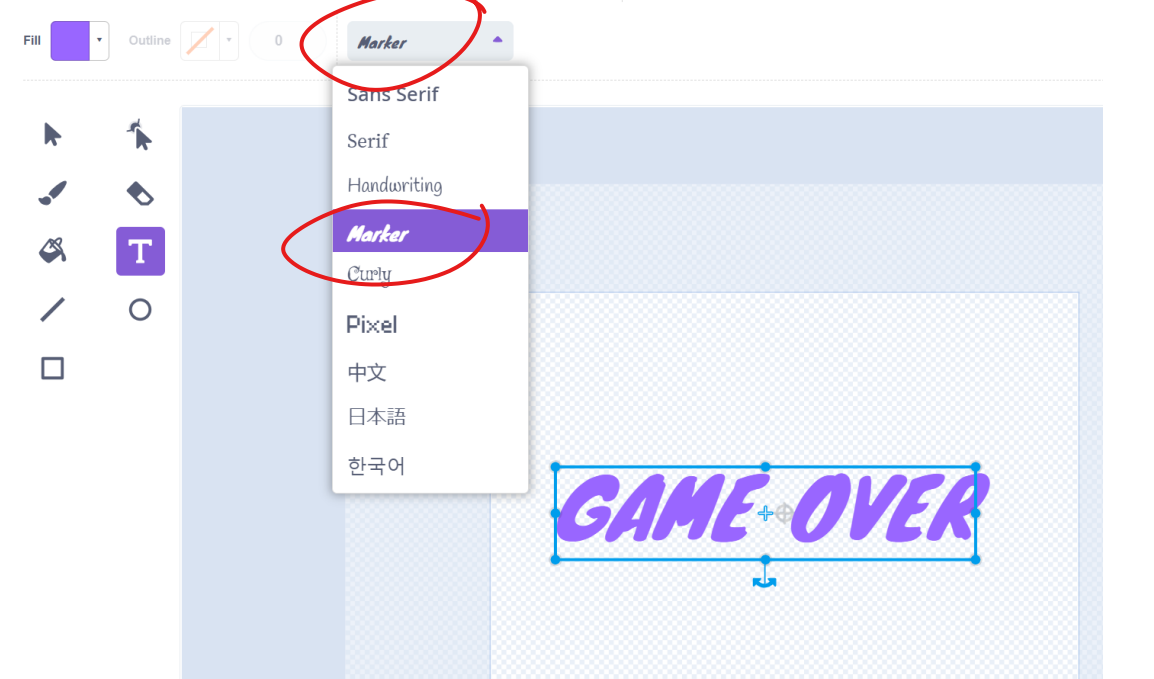

54	Sehingga sound hasil download tersebut akan muncul	 The screenshot shows the Scratch interface with the 'Sounds' panel active. On the left, a list of sounds is displayed. The second sound, 'soundreality-explosion-fx...', is highlighted with a red circle. The main area on the right shows a purple waveform visualization of the selected sound. Below the waveform are various audio controls like 'Faster', 'Slower', 'Louder', 'Softer', 'Mute', 'Fade in', 'Fade out', 'Reverse', and 'Robot'.
55	Kembali ke menu "Code"	 The screenshot shows the top of the Scratch application. The 'Code' button, represented by a purple icon of two overlapping code blocks, is circled in red. Other visible buttons include 'Settings', 'File', 'Costumes', and 'Motion'.

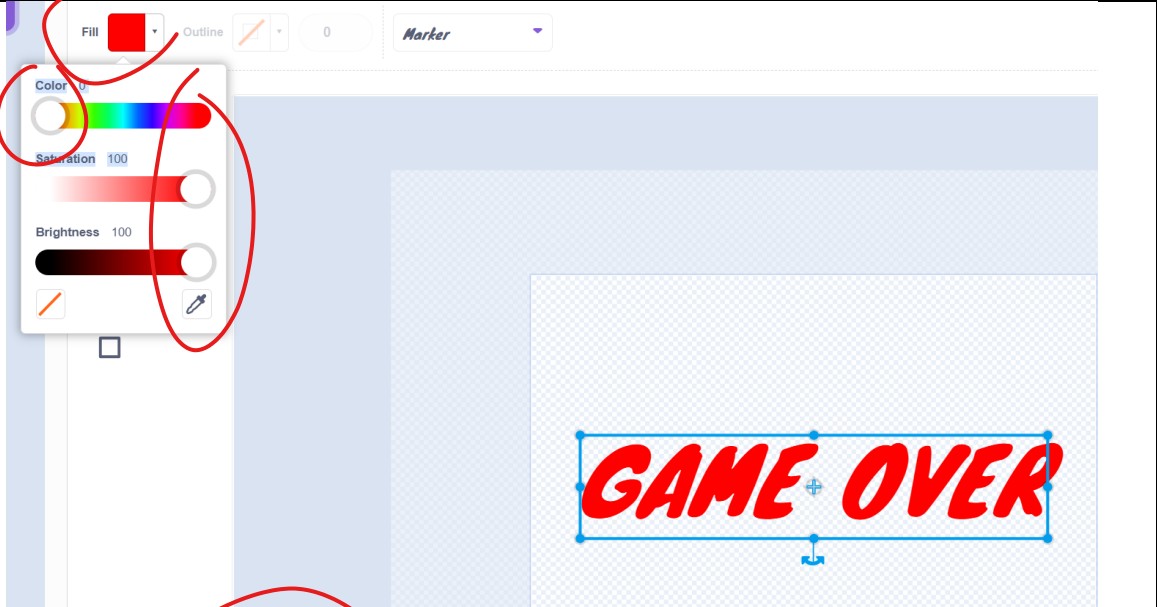

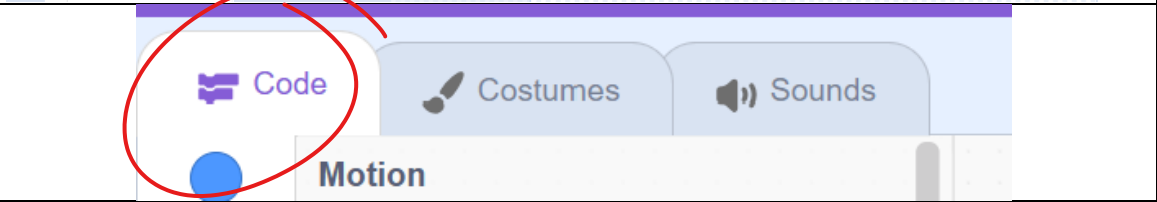

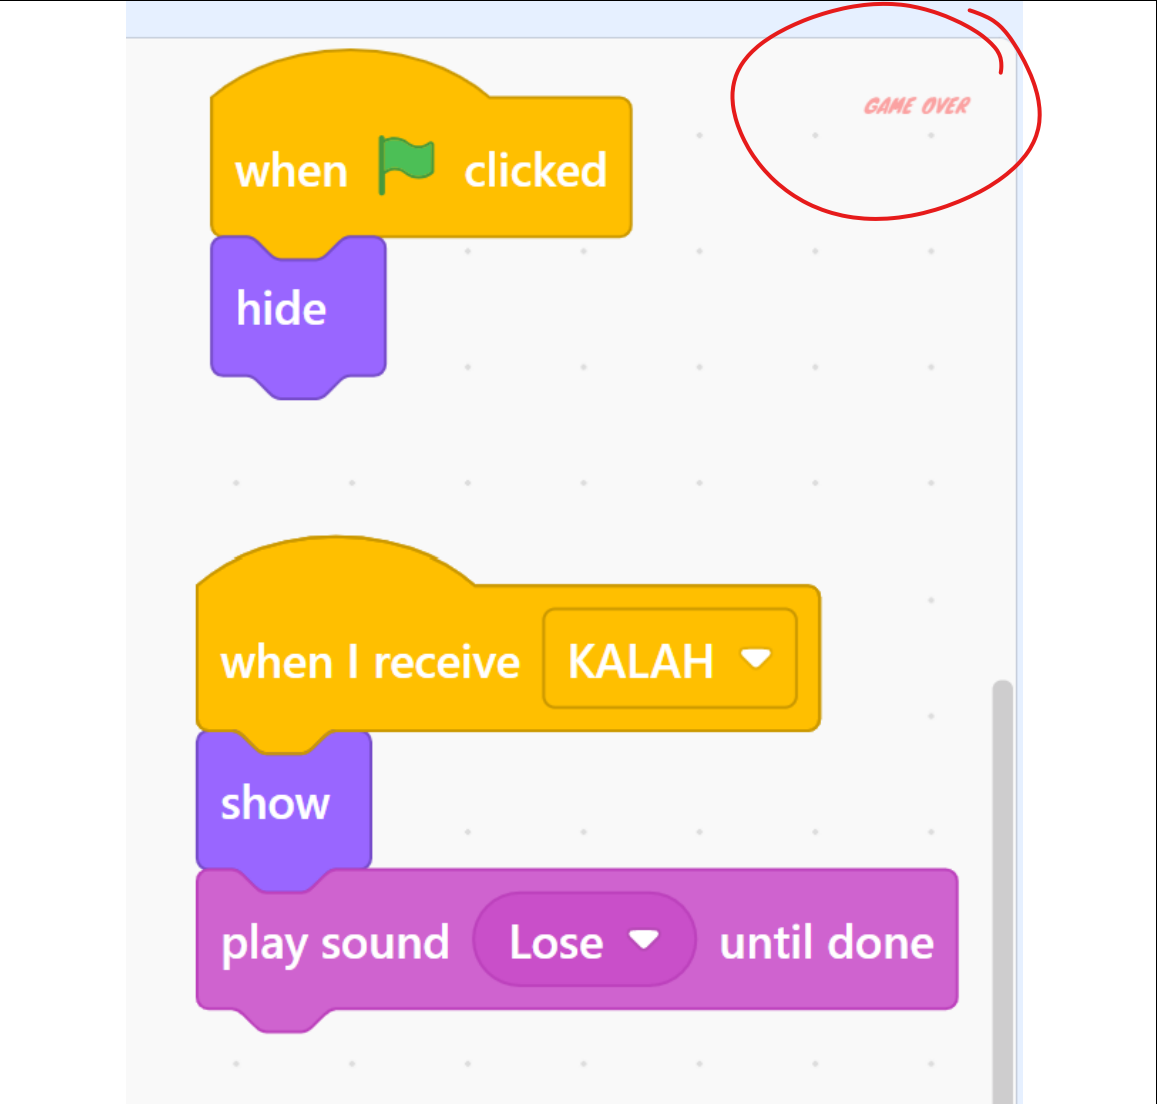

56

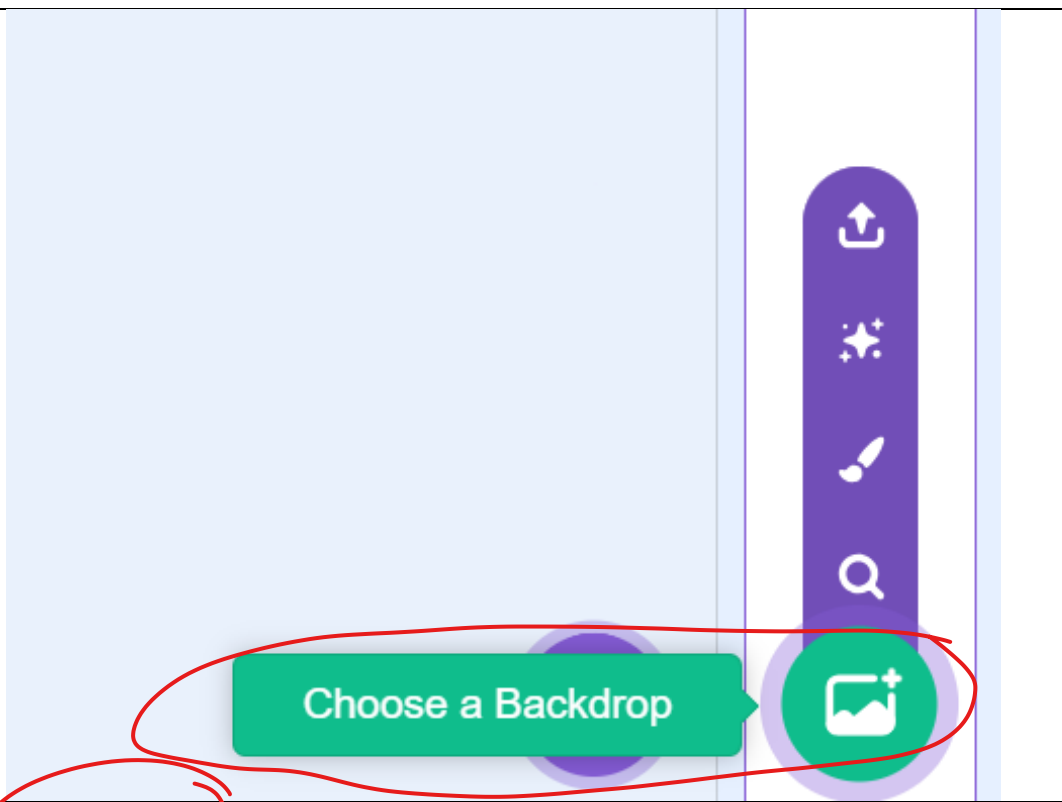

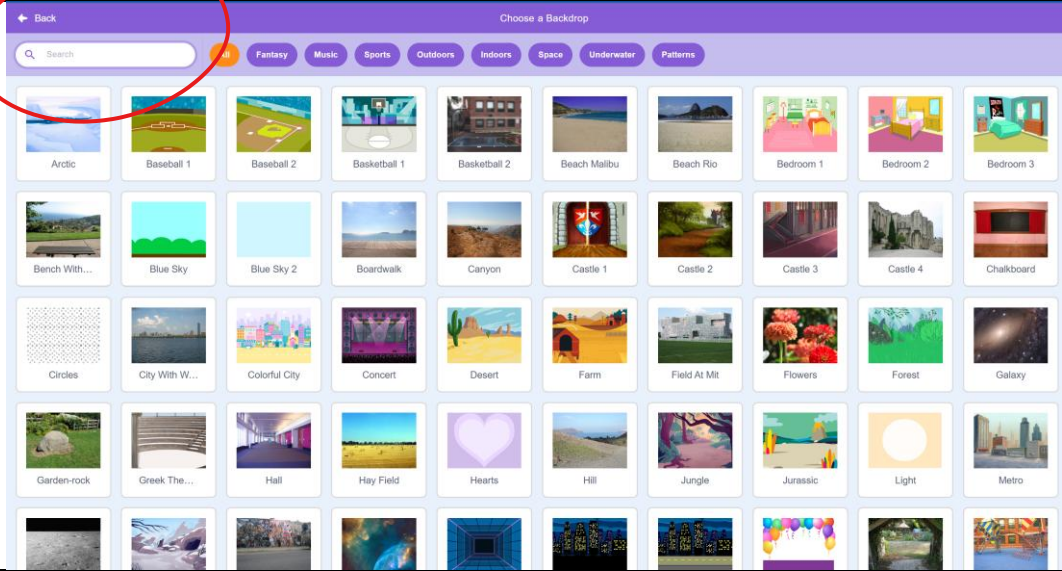

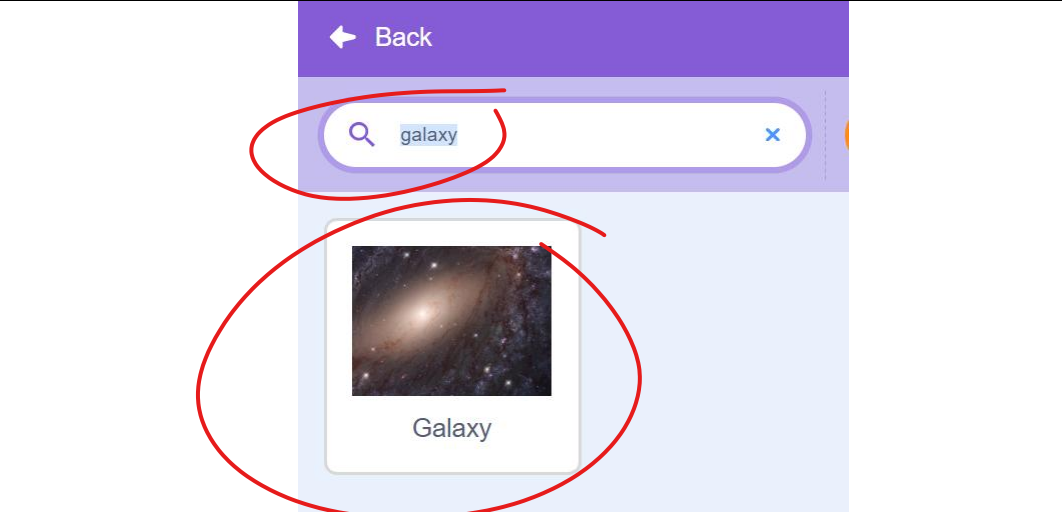

Berikan kode tambahan untuk "Rocks" seperti ini

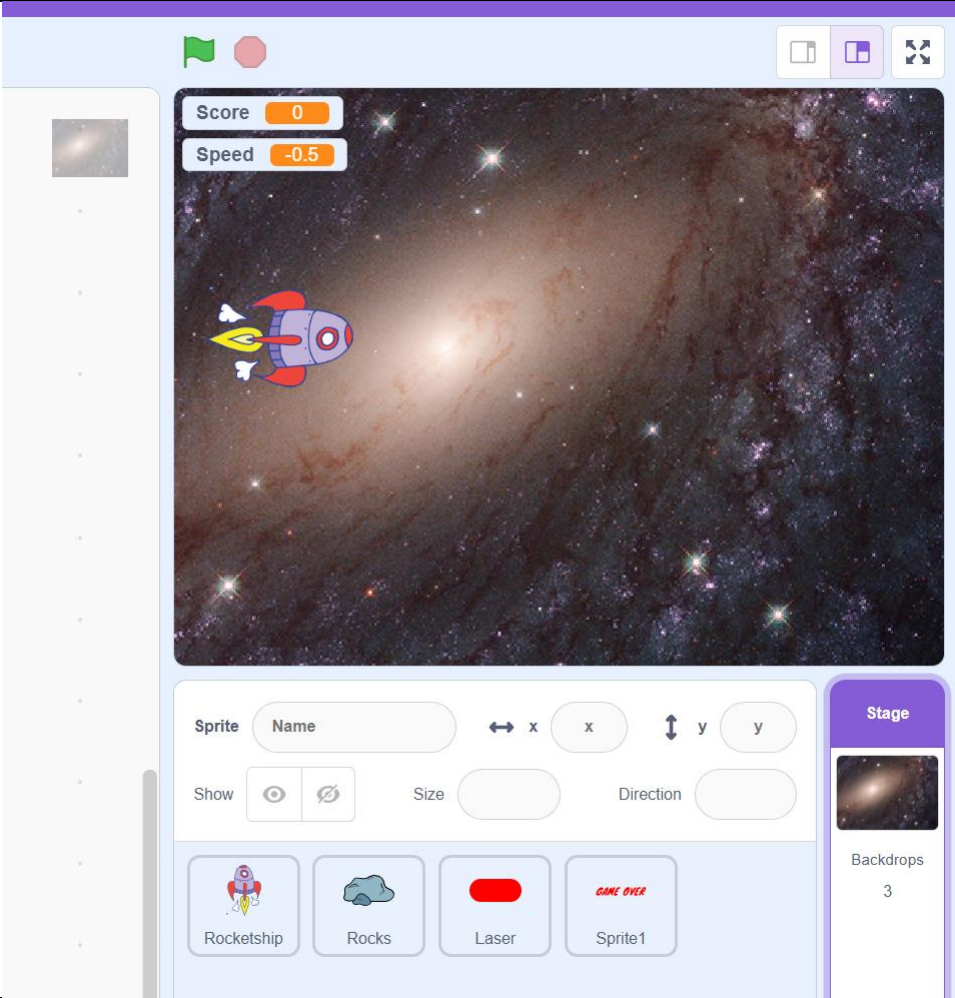

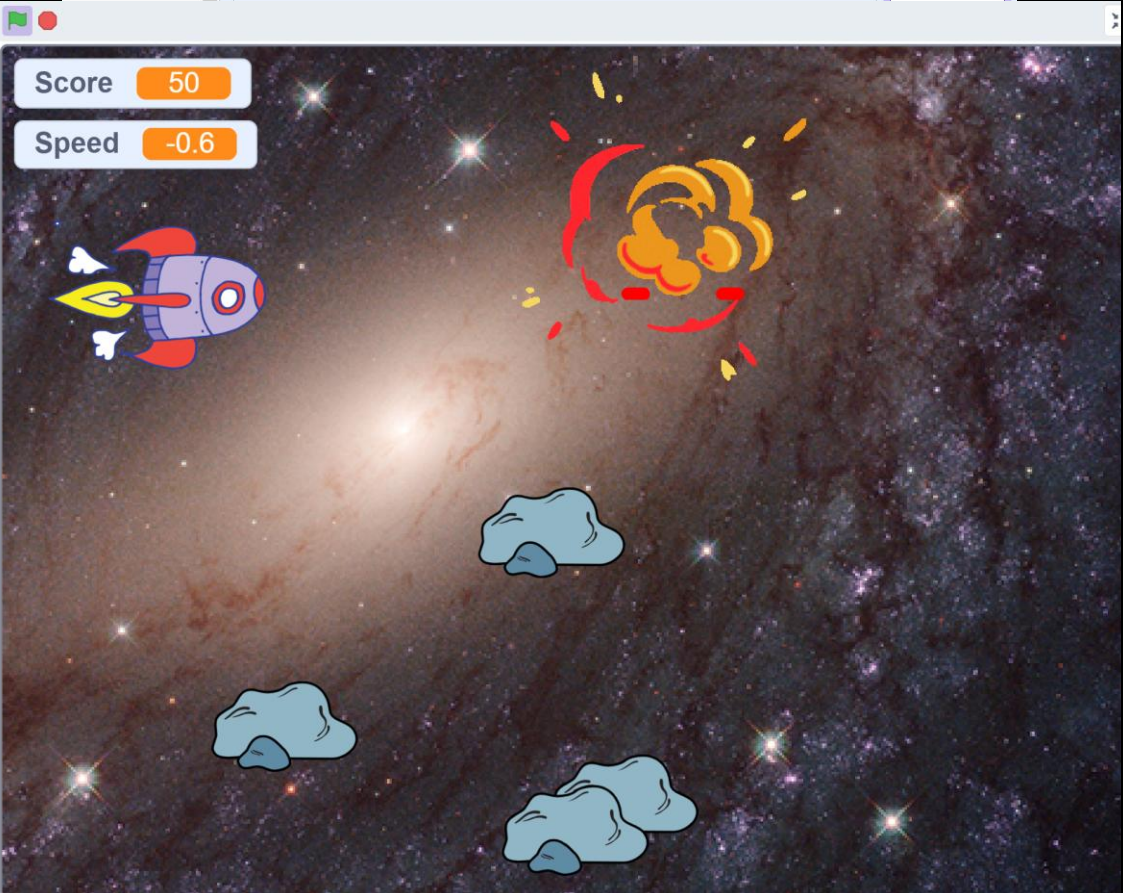

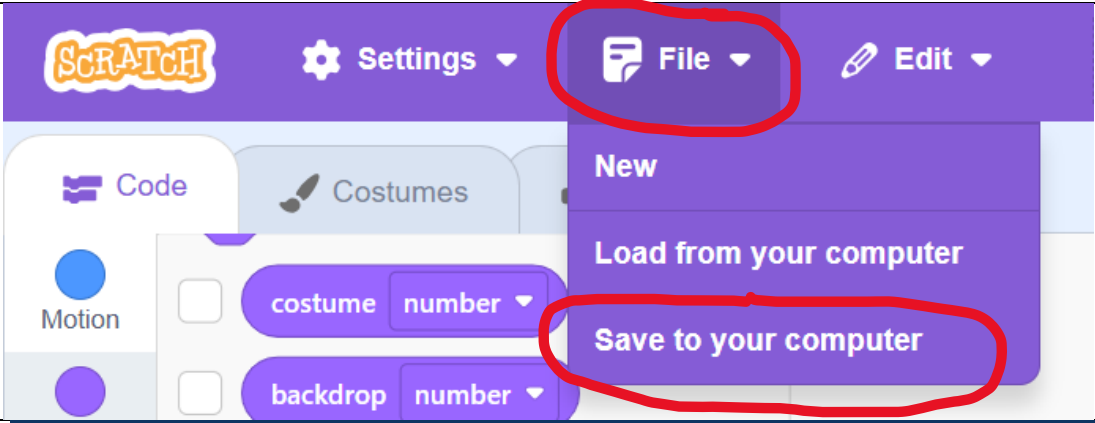

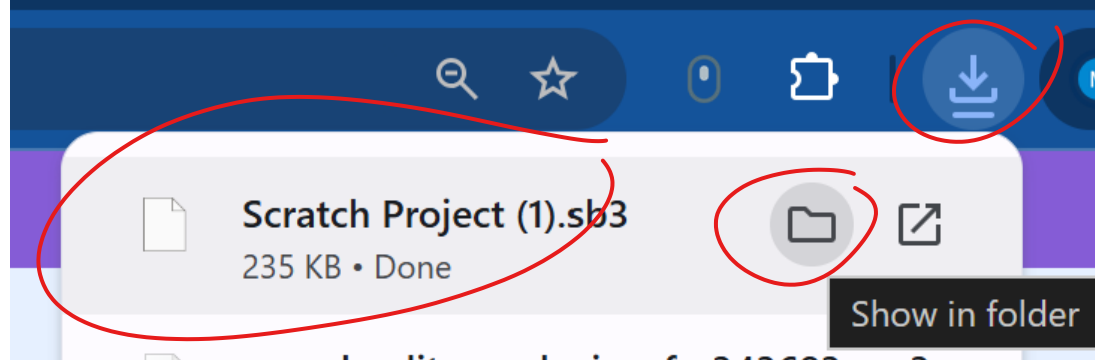

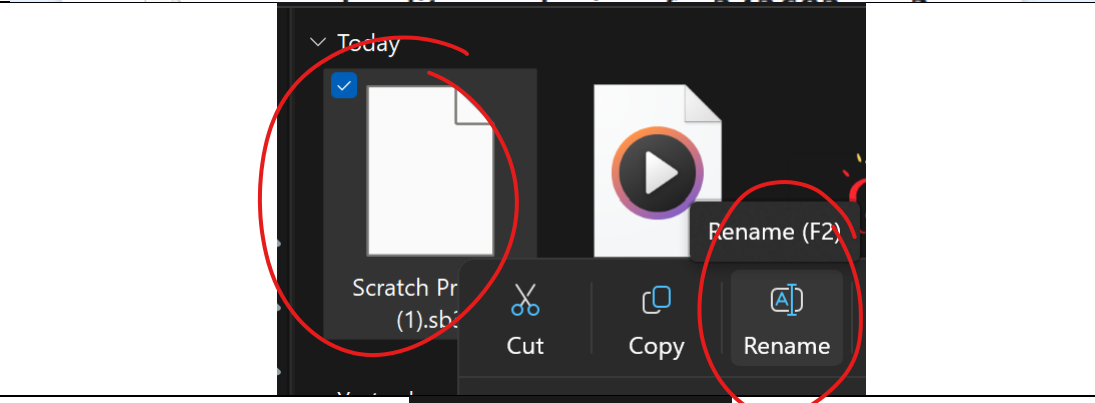

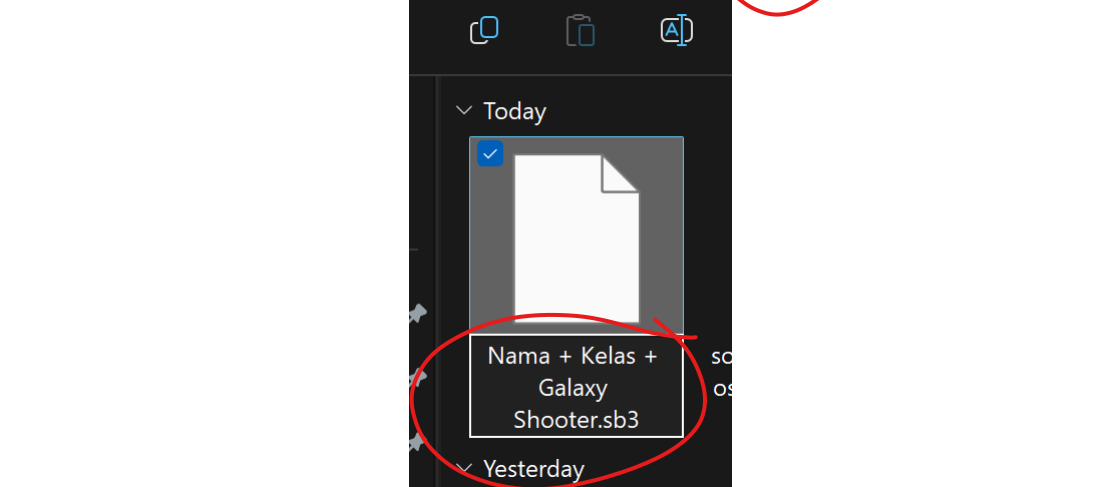

57	Klik di pojok kanna bawah yang sprites, pilih lah yang "Paint"	 A screenshot of the Scratch interface. A green 'Paint' button is highlighted with a red circle. To its right, a vertical toolbar contains several icons: an upload icon, a star icon, a paintbrush icon, a magnifying glass icon, and a cat head icon with a plus sign. The cat head icon is also circled in red. A red line connects the 'Paint' button to the paintbrush icon in the toolbar.
58	Hingga muncul seperti ini	 A screenshot of the Scratch interface. The 'Paint' button is highlighted with a red circle. The interface shows the 'Costumes' tab selected, with a 'costume1' costume displayed. The 'Paint' button is located in the bottom left corner of the interface. A red line connects the 'Paint' button to the 'costume1' costume.

59	Klik icon berbentuk huruf "T" ini yang berarti adalah "Text" untuk membuat tulisan	
60	Buat tulisan "Game Over"	
61	Kamu bisa ganti jenis font sesuai yang kamu mau	

62	Ganti warna menjadi merah	
63	Kembali ke menu "Code"	
64	Berikan potongan kode seperti ini untuk sprites tulisan "Game Over"	

65 Ke menu pojok kanan bawah pilih yang "Choose a Backdrop"	
66 Hingga terlihat ada banyak Backdrop seperti ini	
67 Search "Galaxy"	

68	Hingga Backdrops muncul di halaman utama seperti ini	 The screenshot shows the Scratch interface. The stage displays a rocket ship on a starry space backdrop. The Score is 0 and Speed is -0.5. The Sprite panel shows the Rocketship sprite selected. The Stage panel shows the Backdrops list with 3 items.
69	Silahkan coba dimainkan!	 The screenshot shows the Scratch stage during a game. The rocket ship is on the left, and a large explosion is on the right. There are three blue rocks on the stage. The Score is 50 and Speed is -0.6.

70	Pergi ke menu "File" lalu "Save to your computer"	
71	Klik "Show in folder" hasil download an mu	
72	Klik kanan pada file tersebut dan pilih "Rename"	
73	Rename file menjadi ini	
74	selesai
